In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus qualified to vote in Town Affairs to assemble in the Town Hall on WEDNESDAY, MARCH 13, A. D., Nineteen Hundred and Forty-six, at Eight o'clock P. M., to hear and act on the following articles, viz:

Article 1. To see if the Town will vote to authorize the Town Treasurer, with approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1946, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17 of Chapter 44 of the General Laws, and any amendments thereto, agreeable to the petition of the Town Treasurer.

Art. 2. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow in accordance with the provisions of Chapter 49 of the Acts of 1933, and any amendments thereto, for the purpose of providing funds to meet ordinary maintenance expenses and revenue loans, such borrowing in no event to exceed the amount of the tax titles held in excess of the amount owing to the Commonwealth for similar loans previously made, or to see what action the Town will take in the matter, agreeable to the petition of the Town Treasurer.

Art. 3. To see if the Town will vote to accept Chapter 635 of the Acts of 1945, permitting the payment of vacation pay to employees in advance, or to see what action the Town will take in the matter, agreeable to the petition of the Town Accountant.

Art. 4. To see if the Town will vote to accept a deed of a drainage easement from the Cliftondale Church of the Nazarene, or to see what action the Town will take in the matter, agreeable to the petition of the School Committee.

Art. 5. To see if the Town will vote to amend Section 1 of Chapter 1 of the Building Ordinances by inserting the following sentence after the first sentence in said section:

"The insulation of a structure or building otherwise than at the time of and as a part of its original construction shall be deemed an alteration within the meaning of this section."
 or to see what action the Town will take in the matter, agreeable to the petition of the Finance Committee.

Art. 6. To see if the Town will vote to adopt the following rule further regulating the use of its sewer system:

Report of the Finance Committee

TO THE ANNUAL TOWN MEETING

MARCH 4, 1946

To the Representative Town Meeting and Citizens of the Town of Saugus

The Finance Committee presents herewith its report and recommendations relative to the various financial articles contained in the warrant for the 1946 Annual Town Meeting. The Committee has devoted some 22 sessions to the necessary hearing and feel that full consideration has been given all proposals. Countless hours have been devoted to the problems concerned by all members of the Committee acting as individuals.

Rarely, if ever, has a Finance Committee been more concerned with the financial structure of the Town, but inasmuch as at the time of this writing, the figures resulting from the recent re-assessment project are not yet included in the Assessors' tax listing, the Committee is unable to determine a proper basic valuation in computing its figures. This condition has had some bearing in determining our action relative to increased personnel in the Public Works Department and on special articles.

We unanimously recommend the continuation of the temporary increased cost of living increase currently included in the salaries of all employees in view of the continuing increased cost of all living commodities.

The present labor management difficulties and resulting unemployment are especially reflected in the section of the budget covering Charities and Soldiers Benefits. With numerous Saugus workers and families affected, a sharp increase of aid rendered has been necessary since the mid-January period in both the Public Welfare and Soldiers Benefits Departments. We feel uncertain as to the ultimate expenditures resulting from this condition but hope for a discontinuance in the near future.

Various amounts have been requested under special articles covering the work felt necessary to recondition some of our town buildings and we have consolidated some of the most necessary requested improvements in the general budget under Item 36A. Further explanation will be found under Comment on the General Budget Item 36A.

In conclusion, the Committee regrets that it cannot find its way clear to approve many of the meritorious requests, but our principal efforts are controlled by a desire to maintain a maximum of service under a minimum tax rate.

COMMENT ON THE GENERAL BUDGET

Article 30

Item 9, Tax Collector. Increase due to new legislation providing detailed tax billing.

Item 11. Assessing. Increase due to proposed purchase of new calculating machine.

Item 14. Election and Registration. There are three elections listed during 1946 as against one in 1945.

Item 16A. New Road Machinery and Equipment. We unanimously favor the purchase of the following equipment for the Public Works Department:

1 New Gasoline Roller	\$6,000.00
1 New 3½ Ton Truck	6,000.00
1 New Automatic Sander	450.00
	<hr/>
	\$12,450.00

At present, our Public Works Department is forced to either rent or borrow a roller for street work and it is most necessary. Some of our main roads and side streets are quite steep and it is impossible to properly surface or construct streets without a roller.

Probably no comment is necessary on the proposed new truck when you consider the age and condition of the available equipment used by the various divisions of this department. Most of our trucks are over-age and are constantly being repaired.

The addition of an automatic sander to at least one truck in the Public Works Department, will tend to increase efficiency and lessen labor costs of snow and ice removal. This attachment can also be used

on street work inasmuch as it is capable of spreading materials ranging from sand to stone measuring up to one inch.

Item 26. Water Extensions. This is increased materially over the request. Since the request was prepared, it has been brought to our attention that a suitable pipe is planned on lower Hesper Street and Hamilton Avenue at the same time that Chapter 90 construction is planned. We feel it justifiable to lay the requested pipe to avoid excavating after the new road is built.

Item 27. Hydrants, Gates and Meters. This includes a sum for the purchase of 100 new meters and a substantial sum for the purchase of repair parts. The new meter testing machine and room made available last year makes our Water Division well equipped to handle its work and new meters and repair parts must be made available when needed.

Item 29. Public Works and Allied Division (Salaries and Wages only). We sincerely regret that we are unable to recommend all of the additional personnel as requested. We fully realize that much needs to be done but we are impelled by the total amounts recommended in the general budget to carry this matter over to a future period. The increase does however, include four additional men.

Item 30. Police Department. We have reduced this request by making allowance for a lower priced prowl car, on which repair and maintenance costs should not approach the costs on heavier cars.

Item 33. Fire Department. This includes one additional man needed to balance the working shifts. It was our intention to recommend two men but circumstances prevent us from so doing.

Item 36A. This is a new account to be known as the Town Buildings Repairs Account. This new item will allow a start to be made in correcting and preserving our municipal buildings on which on major repairs or painting have been done since the early W.P.A. days. It is our unanimous recommendation that this work be done under the direction of the Superintendent of Buildings, who we feel, as a competent, full-time official, will see that the Town will receive a full dollar's worth of value for every dollar expended. Suggested repairs are:

TOWN HALL

Exterior Painting	\$2,000.00
Fire Escape and Necessary Doors	1,575.00
Interior Painting and Repairs:	
Selectmen's Office	100.00
Treasurer's Office	75.00

TOWN INFIRMARY BUILDINGS

Roofing and Repairs	1,150.00
---------------------------	----------

OTHER BUILDINGS

Miscellaneous Painting and Repairs	100.00
	<hr/>
	\$5,000.00

Item 38. Gypsy Moth Department. The increase over 1945 in this account consists of wages, mosquito control and poison ivy extermination. One employee has returned from the armed services and it is our policy to also compensate the head of this division for the effort involved.

Item 39. Tree Warden. Inclusion of a sum for elm beetle control causes this increase.

Item 44. Old Age Assistance—Aid. Liberalization of the State laws covering this department entails necessary additional expense.

Item 46. Aid to Dependent Children—Aid. Same as Item 44.

Item 48. Public Welfare—Temporary Aid. Current labor-management troubles cause a rise in temporary aid and the request is necessarily estimated due to the time element involved. If conditions remain unsettled, additional costs will necessarily result.

Item 50. Soldier's Relief. Same explanation as Item 48.

Item 53. Schools. Return of several teachers from the armed services, automatic step-rate increases, increased fuel and transportation costs and the inclusion of a sum to assist in equipping the High School Band with uniforms cause an increase here.

Item 55. Trade School Tuition. Use of trade school facilities by some of our returned veterans who prefer them to re-entering our High School causes this increase.

Item 56. Stadium Maintenance. Increase due to proposed work on field and grandstand.

Item 66. Cemeteries. The sum recommended provides an additional man badly needed to cope with increased work. Past additions to Riverside Cemetery and a new one now to be made, it is necessary to increase the labor force to maintain this enterprise.

Item 74. Interest on Water Loans. This item represents six months interest on the water construction loan authorized by the 1945 annual town meeting.

Warrant for the Special Town Meeting

MAY 6, 1946

ESSEX, ss.

To W. Charles Sellick, Constable of the Town of Saugus

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town Elections and Town Affairs, to assemble in the TOWN HALL on MONDAY EVENING, MAY SIXTH, Nineteen Hundred and Forty-six, at 8:00 o'clock, to hear and act on the following articles, viz:

Article 1. To see if the Town will vote to amend the Zoning By-Law by striking out Section 7 and inserting in place thereof the following section:

"SECTION 7. INDUSTRIAL DISTRICTS. In industrial districts buildings and land may be used for any purpose permitted under Sections 4, 5 and 6 subject to Section 16. It may be used for any other purpose subject to the provisions of Sections 16 and 17.

Notwithstanding the provisions of this section or of Section 17, no use shall be permitted which would be offensive because of injurious or obnoxious noise, vibration, smoke, gas, fumes, odors, dust or other objectionable features or be hazardous to the community on account of fire or explosion or any other cause. No permit shall be granted under this or any other section for any use which would prove injurious to the safety or welfare of the neighborhood into which it proposes to go, and destructive of property value, because of any excessive nuisance qualities.

In granting permits under this section the nature of the neighborhood and the nature of the proposed industry shall be considered and the effects of the industry on the neighborhood shall be carefully weighed. If the industry would in any way injure the neighborhood a permit shall be refused. Where a permit is granted all conditions which will protect the neighborhood shall be imposed and made a part of the permit."

or to see what action the Town will take in the matter, agreeable to the petition of the Planning Board.

Art. 2. To see if the Town will vote to amend the Zoning By-Law by striking out the words "for sale" in the first line of Section 17A as most recently amended, so that said Section 17A will read as follows:

"SECTION 17A. The removal of sod, loam, sand, gravel or stone from a single or general residence, business or industrial districts shall be deemed non-conforming use of premises. Such uses shall be permitted only after special permission of the Selectmen as provided in Section 17, and under such conditions as the Selectmen shall impose. The Selectmen shall grant no such permit as would, in their opinion, adversely affect the scheme of growth laid down in the Zoning By-Laws or elsewhere, or the economic status of the Town, or tend to impair the beauty of the Town or of the district most immediately affected, or develop health or other hazards. Conditions deemed by the Selectmen as tending to protect the Town and the district, shall be imposed where needed and made a part of the permit.

"No permit for the excavation or removal of material shall be granted by the Selectmen for a period of more than seven days from date of issue, but may be extended for additional seven-day periods at the discretion of the Selectmen. A permit issued by the Selectmen shall only be issued to an owner of record and shall not be transferrable."

or to see what action the Town will take in the matter, agreeable to the petition of the Planning Board.

Art. 3. To see if the Town will vote to amend the Zoning By-Laws by establishing a minimum lot area of fifty-five hundred (5500) square feet for Lots A-11, 12, 19, 20, 21, 24, 26 and 31 on Assessors' Plan 1036, or to see what action the Town will take in the matter, agreeable to the petition of the Planning Board.

Art. 4. To see if the Town will vote to authorize the Board of Selectmen to sell Town-owned land in East Saugus at the site of the old American Legion Hall on Lincoln Avenue, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

Art. 5. To see if the Town will vote to accept a deed of land for highway purposes from Stanley Anderson and located on the westerly corner of Birch Street and Lincoln Avenue, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

Art. 6. To see if the Town will vote to amend the Zoning By-Law and Zoning Map by re-zoning for business purposes the property owned by Edward J. Cudihy, Raymond L. Hefferman and Arabel M. Sheaff located at 334, 336, 338 and 340 Lincoln Avenue, now zoned as single residence and described as follows: Beginning at the intersection of Easterly line of Sunnyside Park and the Southerly line of Lincoln Avenue, thence Easterly along said Lincoln Avenue, one hundred sixty (160) feet to land of Connolly; thence the line turns and runs Southerly along said property line one hundred ten (110) feet; thence the line turns and runs Westerly forty (40) feet; thence the line turns and runs Northerly along said property line of Nelson thirty (30) feet; thence the line turns and runs Westerly one hundred twenty (120) feet to Sunnyside Park; thence the line turns and runs Northerly eighty (80) feet to point of beginning; the same being the whole of Lots A-4, 5, 6 and 7 as shown on Assessors' Plan 2014, or to see what action the Town will take in the matter, agreeable to the petition of Delmont Goding and others.

Art. 7. To see if the Town will vote to raise and appropriate a sum of money for the purpose of and sufficient to cover a 15% permanent increase in salary for all permanent employees, said increase to include the "10% and not exceeding \$200.00 Temporary Increased Cost of Living" increase previously voted at the 1946 Annual Town Meeting, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen, School Committee, Board of Assessors, Board of Health, Cemetery Commissioners, Town Treasurer, Town Clerk and Tax Collector, and the Board of Public Welfare.

Art. 8. To see if the Town will vote to raise and appropriate a sum of money for the purpose of purchasing new road machinery and equipment for the Public Works Department, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

You are hereby directed to serve this WARRANT by posting attested copies thereof at the usual places seven days, at least, before the time of holding said meeting.

Hereof, fail not, and make due return of this WARRANT, with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands and Town Seal this Eighteenth day of April, A.D. Nineteen Hundred and Forty-six.

TOWN OF SAUGUS

ESSEX, ss.

To W. Charles Sellick, Constable of the Town of Saugus

Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town Elections and Town Affairs, to assemble in the Town Hall on MONDAY EVENING, JUNE TWENTY-FOURTH, Nineteen Hundred and Forty-six, at 8:00 o'clock, P.M., to hear and act on the following articles, viz:

ARTICLE 1. To see if the Town will vote to transfer a sum of money from any available funds for the purpose of paying wages and other expenses incurred for the removal of debris and damaged shade trees and the necessary repairs to damaged sidewalks and highways occasioned by the storm of June 8, 1946, for which an emergency was duly declared, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 2. To see if the Town will vote to transfer a sum of money from any available funds for the purpose of repairing the damages done to the Armitage School Building and its contents occasioned by the storm of June 8, 1946, for which an emergency was duly declared, or to see what action the Town will take in the matter, agreeable to the petition of the School Committee.

ART. 3. To see if the Town will vote to take by eminent domain, purchase or gift, land in North Saugus for the erection of a standpipe, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 4. To see if the Town will vote to transfer a sum of money to provide funds for carrying out Article 3, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 5. To see if the Town will vote to authorize the Board of Selectmen to sell Town-owned land in East Saugus at the site of the Old American Legion Hall on Lincoln Avenue, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 6. To see if the Town will vote to accept a deed of two hundred twenty square feet, more or less, of land at the corner of Lincoln Avenue and Birch Street for highway purposes, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

You are hereby directed to serve this WARRANT by posting attested copies thereof at the usual places seven days, at least, before the time of holding said meeting.

Hereof, fail not, and make due return of this WARRANT, with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands and Town Seal this Tenth Day of June, A.D. Nineteen Hundred and Forty-six.

(Seal)

TOWN OF SAUGUS

ESSEX, ss.

To W. Charles Sellick, Constable of the Town of Saugus

Greetings:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town Affairs, to assemble in the TOWN HALL on MONDAY, OCTOBER TWENTY-EIGHTH, A.D. Nineteen Hundred and Forty-six, at Eight o'clock, P.M., to hear and act on the following articles, viz:

ARTICLE 1. To see if the Town will vote to take by eminent domain, gift, purchase or otherwise, a part of Lot A-56 on Assessors' Plan 2017 at the corner of Birch Street and Lincoln Avenue, now owned by Stanley Anderson, said land to be used for highway purposes and as shown on a plan filed in the office of the Town Clerk, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 2. To see if the Town will vote to authorize the Board of Selectmen to see at public sale, a parcel of land on Lincoln Avenue in East Saugus, formerly used as the site of the former East Saugus Hose House and American Legion Building, known as Lot A-15 on Assessors'

Plan 3012, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 3. To see if the Town will vote to authorize the Board of Selectmen to purchase or take by eminent domain the land and easements for standpipe, water main and right of way near Walnut Street, as shown on plan by Weston & Sampson, #14/101 on file with the Town Engineer, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 4. To see if the Town will vote to accept the provisions of Section 85E of Chapter 32 of the General Laws, or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 5. To see if the Town will vote to appropriate the sum of \$600.00 for the purpose of complying with the provisions of Section 85E of Chapter 32 of the General Laws, if accepted, said sum to be transferred from unexpended balances or available funds, or both; or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 6. To see if the Town will vote to appropriate the following sums of money:

To Old Age Assistance—Aid Account	\$9,500.00
To Aid to Dependent Children—Aid Account.....	4,000.00
To Public Welfare—Temporary Aid Account	2,500.00
To Infirmary Account	1,250.00

said sums to be transferred from unexpended balances or available funds, or both; or to see what action the Town will take in the matter, agreeable to the petition of the Board of Public Welfare.

ART. 7. To see if the Town will vote to appropriate the sum of \$2,500.00 to the Soldiers' Relief Account, said sum to be transferred from unexpended balances or available funds, or both; or to see what action the Town will take in the matter, agreeable to the petition of the Board of Selectmen.

ART. 8. To see if the Town will vote to appropriate the sum of \$1,000.00 to pay bills incurred and for which an emergency was declared because of damage to the Armitage School, Essex Street, Saugus, caused by the storm of June 8, 1946, said sum to be transferred from any unexpended balances or available funds, or both; to the Schoolhouse Repairs Account, or to see what action the Town will take in the matter, agreeable to the petition of the School Committee.

ART. 9. To see if the Town will vote to appropriate the sum of \$1,577.00 to complete the cost of the installation of the new boiler and oil burner at the Roby School, Main Street, Saugus, said sum to be transferred from any unexpended balances or available funds, or both; to the account titled "New Heating System—Roby School," or to see what action the Town will take in the matter, agreeable to the petition of the School Committee.

ART. 10. To see if the Town will vote to request the Board of Selectmen to cause the following question to be placed upon the ballot at the next Town Meeting: "Shall the Board of Selectmen in behalf of the Town of Saugus, make application to the Legislature for a City Form of Government for said Town?" or to see what action the Town will take in the matter, agreeable to the petition of the Finance Committee.

You are hereby directed to serve this WARRANT by posting attested copies thereof at the usual places seven days, at least, before the time of holding said meeting.

Hereof, fail not, and make due return of this WARRANT, with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands and the Town Seal this Fourteenth day of October, A.D. Nineteen Hundred and Forty-six.

QUESTIONS

QUESTION NO. 1

LAW PROPOSED BY INITIATIVE PETITION

Shall this measure, which by amendments of the General Laws (Ter. Ed.), provides for payment by the Commonwealth of adequate pensions to deserving citizens sixty-five years of age or over in need of relief or support, who shall have resided in the Commonwealth not less than five years immediately preceding the date of application for such pension, and who shall have resided in the Commonwealth continuously for one year immediately preceding said date of application, which is further described as follows:

The measure, by amendments of General Laws (Ter. Ed), c. 6, provides for an old age pension commission of three persons, one to be a qualified physician, another to be an attorney at law and a third to be a non-professional person, who are to be appointed and may be removed for cause by the Governor with the advice and consent of the Council, and are to serve under the Governor and Council. Not more than two members of said Commission shall be members of the same political party. Original appointments of members shall be for one, two and three years respectively, and thereafter appointments are to be for three years. Such members are to devote their whole time to the work of the Commission during business hours and be engaged in no other business, occupation or profession. One of their number is to be designated as chairman by the Governor and shall receive a salary of \$6,000, and each other member \$5,500 per year, with their necessary expenses. The commission is empowered to make and enforce rules and regulations as it may deem necessary in the performance of its duties and as may be approved by the Governor and Council.

The measure strikes out Chapter 118A of the General Laws (Ter. Ed.), and inserts in its place a new chapter entitled "Adequate pensions for certain aged citizens."

It is provided that pensions hereunder shall be paid from the date of application therefor, but in no event before the applicant reaches the age of sixty-five. The Commission shall render a decision in not less than thirty days from the date of application for a pension or a request for an increase of the amount thereof. Such pension shall, wherever practicable, be paid to the aged person in his own home or in lodgings or in a boarding home, which for the purposes hereof shall include any institution providing shelter, care and treatment for aged persons which is not supported in whole or in part by public funds; provided, that no inmate of such a boarding home or institution shall be eligible for a pension under this chapter while being cared for under a contract. Such pension shall be paid by check or in cash which shall be delivered to the pensioner at his residence, if he so requests, and shall be paid semi-monthly unless the pensioner prefers less frequent payments. Such pension shall be on the basis of need and the amount thereof shall be determined in accordance with budgetary standards established by the Commission. Budgetary standards shall be such as to enable an individual pensioner to maintain a standard of living compatible with decency and health. Such pensions, except as hereinafter provided, shall be at the rate of not less than \$48.00 monthly. The pensioner's budget at such times as may be required shall include medical care, if recommended by a recognized physician, eyeglasses, if recommended by a recognized optician, dental care and false teeth, if recommended by a recognized dentist.

In computing the pensioner's payment under this chapter, the Commission shall deduct from the pensioner's budget or the minimum payment, whichever is greater, the amount of income the person paid or to

be paid a pension hereunder may be receiving from any source, and may deduct therefrom such reasonable amount as may be deemed to represent the financial value of board, lodging or other assistance which is being furnished to such persons from any source.

Upon the death of a person drawing a pension, whose funeral cost does not exceed the sum of two hundred and fifty dollars and in whose estate there are insufficient assets to cover the full cost of the funeral, the Commission shall pay to the funeral director the difference between the assets and the cost of the funeral, a sum not exceeding one hundred and twenty-five dollars.

Expenses for medical, hospital and other services rendered to a pensioner, which remain unpaid at the time of his death or commitment to an institution as an insane person, shall be paid directly to the person rendering such services.

No pension under this chapter shall be discontinued nor shall the amount thereof be decreased until the expiration of fifteen days after notice has been given by the Commission to the pensioner.

Provision is made by which a person receiving a pension may be absent from the Commonwealth on a visit without having such pension suspended.

It is provided that General Laws (Ter. Ed.), c. 273, § 20, which relates to the support of parents by children, shall not apply when parents are eligible to receive a pension.

Provision is made that there shall be set up in the Commission a subdivision of appeals under the jurisdiction of a supervisor of appeals. Any person aggrieved by the failure of the Commission to pay an adequate pension under this chapter, or by the failure of the Commission to approve or reject an application for a pension or a request for an increase in the amount thereof, within thirty days after receiving such application or request, shall have a right to a fair hearing, after due notice, upon appeal to the subdivision of appeals in the form and manner prescribed by the commission; provided that such appeal is received by the subdivision of appeals within sixty days after official notice of the action taken by the Old Age Pension Commission has been received by the applicant or pensioner. The decision of the subdivision of appeals shall be final and binding upon the Commission.

The Commission or any interested person aggrieved by any decision in any proceeding before the subdivision of appeals may obtain judicial review of such decision by filing, within twenty days of the date of mailing of such decision, a petition for review thereof in the district court within the judicial district wherein the pensioner or the applicant for a pension lives.

In any proceeding for review the findings of the subdivision of appeals as to the facts shall be conclusive, such proceedings shall be heard in a summary manner and given precedence over all other civil cases. From the decision of a district court upon review an appeal may be taken to the Supreme Judicial Court.

The possession by an applicant for pension under this chapter of assets consisting of cash, active securities or inactive securities, or any combination of such assets, shall not disqualify him from receiving such pension; provided, that the total of such assets, figuring the present cash value of such inactive securities at the sum determined by the Old Age Pension Commission, does not exceed the sum of \$300.

A person is not to be disqualified from receiving a pension because of the ownership of an equity in vacant land from which there is insufficient

income to provide for his budgetary needs or minimum payments, or the ownership of an equity in real estate by an applicant who resides thereon or who, in the opinion of the Commission is residing elsewhere because of physical or mental incapacity, provided that if such equity on the basis of assessed valuation exceeds an average of \$3,000 during the five years immediately preceding application for the pension, the applicant shall execute a bond in the penal sum for the amount of the equity in excess of \$3,000 conditioned on repayment to the Commonwealth of all amounts paid as such pension without interest, such bond to be secured by a mortgage on the applicant's real estate. Provision is made for the recording of such bond and mortgage without a fee and the apportionment of the proceeds realized from any of them between the Federal government and the Commonwealth.

A person is not to be disqualified from receiving a pension by reason of the ownership of a policy of group insurance or of a policy of insurance in an amount not exceeding \$1,000 or of a policy of insurance in an amount not exceeding \$3,000, having a cash surrender value not in excess of \$1,000, if such policy has been in effect not less than fifteen years.

No pension shall be granted to an applicant who at any time within five years immediately prior to the filing of an application for such pension has made an assignment or transfer of property so as to render himself eligible to such pension. No pension shall be subject to trustee process or assignment, and no applicant for a pension, who knowingly makes any false statement or perpetrates any fraud or deception in relation to his application, shall be granted any pension nor be eligible for one during one year thereafter. A person, his executor or administrator shall be liable in contract to the Commonwealth for expenses incurred by it for a pension paid to such person under this chapter if such person or his estate is in possession of funds not otherwise exempted thereunder.

If an application for a pension under this chapter is effected by the eligibility of the applicant to receive aid under General Laws (Ter. Ed.), c. 115, which relates to State and Military Aid and Soldiers' Relief, the applicant shall be entitled to exercise such options and execute such waivers as may be necessary to receive the pension which he seeks.

All cities and towns in the Commonwealth shall furnish suitable headquarters for the carrying out of the duties of the commission in such cities and towns.

The measure further provides that there shall be established and set up on the books of the Commonwealth a separate fund, to be known as the Old Age Pension Fund, consisting of receipts credited to said fund under General Laws (Ter. Ed.) c. 64B, G. L. (Ter. Ed.) c. 128A, § 15, as amended, G. L. (Ter. Ed.) c. 138, § 27, as amended, and all proceeds of taxes assessed under Acts of 1941, c. 729, §§ 9 and 9A.

The Old Age Assistance Fund as in force immediately prior to the effective date of this act is hereby continued in existence, but shall hereafter be entitled "The Old Age Pension Fund."

It is provided that all civil service employees in the Department of Public Welfare of the Commonwealth, including the supervisor, referees and employees of the subdivision of appeals in said department or of any city or town, employed in the administration of the Old Age Assistance Law on the effective date of this proposed measure, shall be transferred to the service of the Old Age Pension Commission, retaining their present civil service seniority retirement rights and any step increases from the minimum pay of their grade earned during their service with said department or said bureaus.

It is provided that all records and property used in the administration of the Old Age Assistance Law and which are the property of the Commonwealth are to be transferred to the Old Age Pension Commission.

This act shall take effect on March first, nineteen hundred and forty-seven,—which proposed law was approved in the House of Representatives by a vote of 125 in the affirmative and 79 in the negative, and on which the Senate did not vote,—be approved?

Annual Report of Playground Commission

The members of the Saugus Playground Commission submit their annual report to the citizens of Saugus.

Through the cooperation of the School Committee, the following school yards were maintained as play areas for grammar school children: Armitage, Ballard, Clifondale, Lynnhurst, North Saugus, Roby and Felton, in addition to the Bristow Street Playground. Activities for older boys and girls were conducted at Anna Parker Playground. This is the first year that play areas were maintained at Roby and Felton schools.

More than 950 grammar school children were enrolled at the play areas and 1,000 articles of handiwork were exhibited at the Saugus Youth Fair. Each playground sponsored special events such as picnics, horrible parades, exhibits and beach parties. The 1946 program was ably supervised by Miss Jean Hawkes. Those participating in the events at Ann Parker Playground attended National and American League baseball games in Boston by arrangement of the Commission.

Anna Parker Playground has been graded satisfactorily and the infield was completed so that the Playground Baseball Team made full and complete use of it.

The Commissioners wish to thank all Town officials, and citizens of the Town who have made the 1946 playground season successful.

Respectfully submitted,

EDWIN M. HOLMES, Chairman;
PAUL CORSON, Secretary;
WALTER R. DECAREAU.

Report of the Trustees of the Saugus Free Public Library

We, the Board of Trustees of the Saugus Free Public Library, accept the following report of the Librarian and submit it as our report.

(Signed):

ALBERT R. MAGEE, Chairman;
WILLIAM IRBY, Secretary;
KALER A. PERKINS,
WALTER D. BLOSSOM,
CHAUNCEY V. WHITTREDGE,
ELMER H. WATSON.

To the Board of Trustees of the Saugus Free Public Library:
Report for the year ending December 31, 1946:

This year has been marked by two changes in the membership of the Board of Trustees,—Mr. William Irby replacing Mr. Leverett B. Mears, deceased, as secretary of the board, and Mr. Elmer H. Watson taking the place of Mr. Ashton Davis, who resigned. Although we regret the loss of two valued members, we have found our new associates stimulating and enjoyable in their civic-minded interest.

The circulation total for the year 1946 shows an encouraging increase over that of 1945, and presents some interesting trends in the use of the book collection. The enrollment of many returned veterans in nearby schools and colleges, and an accompanying shortage of textbooks and collateral material have caused an increased demand in the public library for books on the social sciences, literature and history. A growing interest among the townspeople in creative arts and crafts has been amply demonstrated by the much greater use of books in the fine arts classification. It is also very encouraging that the circulation of the collections for children and young people shows a slow but gradual upward trend. We have, during the year, added to the number of titles in the High School collection in the Main Library and branches, choosing these books from the newest approved reading list. That the students have appreciated this service has been shown by the constant emptying and refilling of the shelves.

During September, the eighth grade English classes from the Central Junior High School were brought to the library by their respective teachers for instruction and practice in the use of the card catalogue and its relation to the placing of books on the shelves. The boys and girls showed considerable interest in this project, and it is one which we should like to carry out more intensively and thoroughly another year.

Perhaps the most satisfactory change which has been made during 1946 was the removal in October of the East Saugus Branch Library from its former location to its new quarters at the Pumping Station. Through the cooperation of the Board of Selectmen, the Board of Trustees was able to obtain the use of the entire front section of the Pumping Station building, which was previously unoccupied. This part of the building is admirably arranged for such a purpose, and the East Saugus Branch now has a large main room for the use of adult and juvenile readers, plus a smaller room which houses a reference collection and

books for the High School group. At the same time, the hours during which this branch is open to the public were extended from ten and one-half hours to eighteen hours per week. It is hoped that the more favorable location plus the additional hours of service may result in a greater use of the library by the people of this section. Miss Aginess Blossom, East Saugus Branch librarian, is greatly interested in young people, and is endeavoring, by means of a colorful collection of juvenile books, and by frequent story hours, to attract more children to the library. The new quarters are bright and spacious, and if it were possible to find a similar arrangement for the Clifftondale Branch, we should feel that a major problem had been solved.

Book reviews have been given during the year to several of the P.T.A. and women's church groups by the librarian and by Miss Huldah Blackmer, librarian of the Clifftondale Branch. The particular interests of younger groups have been considered in book talks to the Rainbow Club and to the Brownies.

Children's Book Week, in November, was celebrated with colorful exhibits of the fall juvenile books on both the adult reading room and the Boys' and Girls' Room at the Main Library, and at all the branches. Bright new draperies and posters also marked the occasion. Story hours were held at the Clifftondale and East Saugus branches by their respective librarians, and at the Main Library by Mrs. Marjorie Walkey. In every case, the audience was large and enthusiastic. Lists of children's books, suggesting gifts suitable for every age, were available for distribution to parents.

Attendance at the various professional meetings of the Massachusetts Library Association, North Shore Library Club, Boston Book Review Club, and the Round Table of Children's Librarians, has been arranged for some member of the staff whenever possible. In October, the librarian was appointed to the Membership Committee of the Massachusetts Library Association, representing the North Shore Library Club.

Once again, the librarian wishes to thank the members of the Board of Trustees and the staff for their helpful cooperation, and those friends of the library who have assisted in making this a successful year.

Respectfully submitted,

ALICE HAMILTON BOYD,

Librarian.

Annual Report of the Police Department

January 1, 1947.

To the Honorable Board of Selectmen:

It again becomes my pleasure to present to you my sixteenth annual report of the Police Department, for the year ending December 31, 1946.

The Department consists of a Chief, one Captain, one Lieutenant, twelve regular Patrolmen and two Reserve Officers.

There are also forty-nine Special Police Officers, eighteen of whom are equipped with uniforms and are capable of doing regular police work in emergencies. There are the Watchmen of the Lynn Water Sheds, who are Special Police Officers. There are six in this group.

The Roster of the Police Department is as follows:

Chief: John T. Stuart.

Captain: Henry P. Wheaton.

Lieutenant: Roland E. Mansfield.

Regular Patrolmen: William MacDougall, Joseph A. Lambert, Jr., James F. Maher, Thomas F. Spencer, William F. Cahill, Ernest A. Dunham, Carl G. W. Pearson, Edgar T. McKenney, Rosario A. Bucchiere, Edward F. Newbury, Walter J. Elsmore, Fred Forni.

Reserve Officers: Anthony McNeil and George Riley.

Daily reports of Officers show: Assaults 16, women and girls accosted 5, larceny 126, breaks 51, articles lost 54, articles found 55, windows broken 51, property damage 18, autos stolen 20, autos recovered 27, drunken persons 67, disturbances 51, domestic troubles 42, prowlers and peepers 30, missiles thrown 39, dogs lost 121, dogs found 96, bitten by dogs 33, birds and animals killed by dogs 22, barking dogs 54, animals killed 59, persons missing 47, persons found 49, holes in sidewalks and streets 13, playing in street 23, notified or investigated for other authori-

ties 120, doors and windows found open 220, lights found burning 27, conveyed to hospitals 232, conveyed from hospitals 49, fires discovered and responded to 33, all others 1,114, investigations 659. Total: 3,623 complaints.

During the year there were 503 arrests made. Of this number 34 were females and 12 were juveniles. There were also 305 arrests made for out-of-town police.

The arrests were for the following offences: Assault and battery 14, town by-law 8, allowing an improper person to operate a motor vehicle 2, assault on a police officer 7, drunkenness 197, operating unregistered and uninsured motor vehicles 7, operating under the influence of liquor 50, operating without license 9, leaving scene of accident without making identity known 11, operating at excessive speed 100, larceny 5, operating so as to endanger the lives and safety of the public 9, operating after suspension of license 2, trespassing 1, breach of the peace 1, breaking and entering in the daytime 1, manslaughter 1, safe keeping 1, breaking and entering in the night time 6, truant 4, false alarm of fire 4, rape 1, malicious destruction of property 3, fornication 3, non-support 3, no certificate of registration on person 2, neglected children 5, violation of auto laws 28, evading fares 2, idle and disorderly 1, larceny (delinquent) 1, carnal abuse of female child 1, adultery 7, open and gross lewdness 4, failing to stop for officer in uniform 2, larceny of motor vehicle 5, cruelty to dumb animals 3, maintaining a gambling nuisance 2, setting up and promoting a lottery 2.

Total amount of fines collected from defendants by the Saugus Trial Justice Court and the Lynn District Court, \$6,371.00.

The Department has not enough officers for the required amount of police protection demanded by a town of this size, and this year, of all years, finds this town as well as other communities in such a financial condition that I do not deem it advisable at this time to ask for any additional men.

I would like to inform you that living conditions are high and after the withholding tax is taken out of the officer's pay he receives between forty and forty-nine dollars a week. This is inadequate for an officer to support his family properly. The most noticeable feature of this wage condition is the difference in pay of the superior officers of the Department and the patrolmen. The superior officers of this Department are much lower paid than any other department of comparable size in the State. This condition should be changed. After all, there are responsibilities with all executive positions and their salaries should be increased to compare with other departments.

Again I am asking for the revision of the By-Laws in as much as this Department cannot enforce any traffic conditions that may exist in the town. I would like to suggest that the Traffic Rules and Regulations that were compiled by the State Department of Public Works and I in 1938 be put into effect at once.

I would like to recommend that the reserve list be abolished which at the present time consists of two officers, and have it replaced with an intermittent list of officers. This would improve conditions in the Department and give better police service to the citizens of the town.

In conclusion, I wish to thank all those who have assisted me in the past for the efficiency our Police Department enjoys.

Respectfully submitted,

JOHN T. STUART,
Chief.

The General Electric Company went out on strike January 15, 1946, and employees were unemployed for ten weeks. This department was compelled to aid many of the strikers, an expense which was unforeseen, and necessitated the Board to request additional funds at a Special Town Meeting.

In addition to aiding strikers residing in Saugus, there were a considerable number of cases aided in neighboring cities and towns with Saugus settlements, which expense is charged to this town. This burden on the town caused our funds to be exhausted with an outstanding debt of approximately \$4,300.00 unpaid bills.

Due to the State Standard Budget which is being used on Temporary Aid cases, as well as Aid to Dependent Children and Old Age Assistance cases, it is the opinion of this Board that the expenditures for 1947 will equal or exceed that of 1946.

Respectfully submitted,

FRANK P. GAROFANO,

Agent.

AID TO DEPENDENT CHILDREN

The total expenditure for Aid to Dependent Children during 1946 was \$14,995.39 of which \$1,019.49 was for administration. Following is a chart which gives a true picture of Aid to Dependent Children allowances

made to residents of Saugus during 1946 and the breakdown of reimbursements claimed from their respective sources:

Month	Payroll	Federal Grant	State's Share	Local	Cases
January	\$ 880.95	\$167.35	\$293.65	\$419.95	13

	<u>\$13,975.90</u>	<u>\$2,828.26</u>	<u>\$4,658.62</u>	<u>\$6,489.02</u>	

The following is a summary of expenditures and reimbursements received from their respective sources:

Expenditures		Reimbursements	
A. D. C. payrolls	\$13,975.90	Federal—Aid	\$2,828.26
Administration	1,019.49	From State—Aid	4,658.62
Total Expenditures	\$14,995.39		\$7,486.88
		Federal—Administration	318.84
			\$7,805.72
Total Expenditures for 1946			\$14,995.39
Total Reimbursements for 1946			7,805.72
Net Cost to the Town for 1946			\$7,189.67

Prior to October 1, 1946, the Federal Government reimbursed on Aid to Dependent Children aid $\frac{1}{2}$ up to \$18.00 per month for the first eligible child and $\frac{1}{2}$ of \$12.00 for each additional eligible child. This reimbursement was increased as of October 1, 1946, so that we now receive $\frac{1}{2}$ up to \$24.00 per month for the first eligible child and $\frac{1}{2}$ of \$15.00 for each additional eligible child, plus \$1.50 for each eligible child.

During November, 1946, our payroll increased \$232.82 when the State Standard of Budget was revised and became mandatory on Aid to Dependent Children cases.

It is the opinion of this Board that the expenditures for the year 1947 may show a slight increase due to the liberalization of the State Standard of Budget.

Respectfully submitted,

FRANK P. GAROFANO,
Agent.

OLD AGE ASSISTANCE

The total expenditure for Old Age Assistance during 1946 was \$123,218.04 of which \$4,404.90 was for administration and \$3,671.48 was paid to other municipalities for aid rendered Saugus Settled cases. The following chart gives a true picture of Old Age Assistance granted to

residents of Saugus during 1946 and the breakdown of reimbursements claimed from their respective sources:

The following is a summary of the income received from their respective sources:

Federal Grants—Aid	\$49,223.68
Federal Grants—Administration	1,533.65
State Share—Aid	48,393.13
Other Municipalities	2,623.23
State Meal Tax	3,569.27

Total expenditures for 1946.....	\$123,218.04
Total Recoveries for 1946	<u>105,445.17</u>
Net Cost to the Town for 1946	<u>\$17,772.87</u>

The following table shows children's exemptions as provided by law:

Single child in home of applicant	\$1,500	year net
Single child living apart	1,750	year net
Married child, spouse self-supporting, no dependents....	2,750	year net
Married child, spouse dependent	2,750	year net
Married child, each additional dependent	500	year net

All contributions are based on 1/3 of the amount over and above these exemptions.

There are several bills in the legislature pertaining to changes in Old Age Assistance laws, viz:

1. To do away with citizenship requirement so that an alien is eligible.
2. Sixty at Sixty—which would grant all recipients \$600 a year at the age of 60 or over.
3. Six different bills to increase the minimum allowance.
4. To take the State reimbursement out of the General Fund and make it a revolving fund to be used the same as the Federal Grants in Old Age Assistance.

If any of the above bills are passed by the legislature it will mean a considerable increase in the expenditure of Old Age Assistance for 1947.

During 1946 the State changed its State Standard of Budget twice. On June 1, 1946, the adoption of a new standard of food allowance and recent rise in cost of fuel for heating purposes necessitated an increase of approximately \$588.11 a month. The revised budget effective November 1, 1946, again increased the budget approximately \$633.99 a month, making a total increase of about \$1,222.10 a month with the above increase.

On October 1, 1946, the Federal Government increased its reimbursements from one-half of \$40 per case to one-half of \$45 per case with an additional \$2.50 on each individual case. In addition to the above the Federal Government increased its share of administration from two-thirds of 5 percent to 50 percent of the total administration. This reduces the cost of aid and administration to the town by several thousand dollars.

FRANK P. GAROFANO,
Agent.

The Board of Public Welfare again voted not to plow and harrow the 14 acres allotted previous years for Victory Gardens as they felt enough people would not take advantage of it, but the same amount of land was left available for gardens.

There were several notices placed with the press and previous holders of garden plots were notified by letter that the land was again available, but they would have to provide for their own plowing and harrowing. Approximately 35 persons took advantage of this offer and many reported their gardens were very successful. Land will be available for home gardens in 1947 and it is the hope of this Board that the townspeople will again take advantage of this opportunity. Plowing and harrowing must again be provided by those using the plots.

Report of Board of Selectmen

To the Citizens of the Town of Saugus:

Your Board of Selectmen herewith submits its report for the year of 1946. Due to space limitations, we attempt only to cover the major problems and decisions which have arisen during the year.

LAND SALES

Perhaps our largest number of contacts have been with the citizens who have applied for the purchase of town-owned, tax possession land. The financial return to the town has been fair but it must be realized that these possessions seldom bring in the amount due the town. Our prime purpose has been to transfer this property from the non-revenue producing column back to the listing of the Assessors in order to obtain revenue. During the year the Board established the policy of advertising the sales and setting aside one night a month for the purpose of publicly selling to the highest bidder. It is our hope that this policy will continue in order that all citizens have the opportunity of obtaining land in which they may be interested. We call your attention to the amount derived from these sales, it being shown in the report of the Treasurer as income from tax possession sales.

LAND SALES TO VETERANS

During the year, your Board put in practice, the policy of selling to veterans, including those of the Merchant Marine, land in all sections of the town at a rate of \$1 per lot. The only restriction has been that each veteran be sold only sufficient land to comfortably establish homes or businesses. This policy had long been recommended, but until this year no actual move had been made in this direction.

POLICE

In 1946 your Board sponsored in Town Meeting the new Fire and Police Retirement Act, enabling men to retire at the age of sixty-five, and under its provisions Patrolmen James P. Sullivan and C. Herbert Berrett were retired. We pay tribute to the long and understanding service rendered by both of these men. We call your attention to the report of the Chief of the Department found elsewhere.

FIRE

Reverting to the town's former policy of having the Fire Department administered by a body other than the Selectmen, we appointed four men to serve with the head of the department to operate this agency of town affairs. Their report is also entered separately.

ACCOUNTING

We would be remiss in our work if we did not at this time make note of changes in this office. The town as a whole and the Board in particular lost in 1946 probably the most qualified man in our entire financial organization. We pay deep tribute to the late Ralph Quirk, the Town Accountant for many years. Certainly no more could be said than to repeat the opinion of an officer of the Commonwealth when he said, "There was no better accounting system or set of books in the State than those of Ralph Quirk. His methods had placed Saugus foremost in the State as far as the operation of the Account's Department was concerned." We feel confident that the work done by Mr. Quirk to organize and operate his office will stand for many years. On transfer from the Public Works Department, Carl Chapman is acting as Accountant under a provisional appointment.

WATER

While no actual construction will start until the spring of 1947, to avoid working frozen ground, the much discussed connection of the town water system with that of the Metropolitan District Water Commission has been instituted. A change has been made in the location of the standpipe in North Saugus to gain ten feet in elevation, thus increasing pressure. Contracts have been awarded for the construction of the standpipe and for the purchase of materials necessary to connect from the Saugus-Revere line to the junction of Lincoln Avenue and Central Street. The Board is currently working on the tie-in from Franklin Square to Hamilton Street, awaiting permission of the City of Lynn to carry lines through Boston Street in that city. It is the intention of the Board that the construction on Lincoln Avenue be done under private contract for reasons outlined in our comments on the Public Works Department. A contract has also been signed with the M. D. C. to supply water at a volume which will eliminate additional pumping.

LICENSES

In order to properly set up a system of licensing in Saugus, we have made changes in the expiration date of practically all licenses issued by the Board. Formerly licenses were renewed on expiration which might be at any time during the year. All licenses from now on will expire on December thirty-first of the year in which they are granted. This tends to simplify clerical work and records and the town should know at the end of each year just what enterprises are being carried on and what revenue may be expected. Adjustments, made to increase revenue, were made on practically all fees charged for licenses. These are shown under the report of the Collector of Selectmen's License Fees. It is the request of the Board to the Town Meeting to change the dates and fees on those licenses covered by Town By-Laws.

PUBLIC WORKS

Complete details of the operation of the Department are shown in both the report of the Acting Superintendent and the Treasurer. However, as this seems to be the most discussed division of our activities, we take a good share of our report to bring out many pertinent facts.

Seldom, if ever, has a full Board of Selectmen devoted as much time to studies and conditions in this department as has this Board. Detailed examination of equipment, systems employed, records, personnel and inspections on the actual work in process have consumed many months. At best the department is still in poor shape regarding equipment, storage room and buildings. We well realize that it is the popular sport among those interested in town affairs to find fault with our Public Works Department. However, if as much time and more thought were given to constructive and helpful criticism as has been devoted to tearing the division apart, by many supposed authorities, including those who created some of the conditions, the department and the town would function much better. Comments of some remind us of the poem describing how difficult it is to build and how outnumbered the builders are by the wreckers.

Your Board has personally viewed every major job undertaken this year and when we consider what equipment is on hand we are not dissatisfied on too many scores. Old and obsolete equipment, in some cases of an age where manufacturers no longer make replacement parts, has greatly hampered the efforts of the crew. Individual trucks that consume quarts of oil per day are of no value to the department, yet they are operating every day of the week for lack of money to repair or replace. It is safe to state that there are not more than six vehicles, including a roller, which can be profitably operated. These must be used on all phases

IN MEMORIAM

RALPH QUIRK

WHEREAS—

Almighty God in His infinite plan has called RALPH QUIRK to his eternal reward; and

WHEREAS—

RALPH QUIRK gave so willingly of his life and talents to be of service as Town Accountant both to his fellowman and to the Town; and

WHEREAS—

His service was so like that of the Master . . .

BE IT HEREBY RESOLVED—

That the Board of Selectmen of the Town of Saugus, in session this second day of December, 1946, give thanks for the life and service of RALPH QUIRK and hereby vote that these resolutions be spread upon its official records and that a copy of the same be sent to his bereaved widow and children.

C. CARROLL CUNNINGHAM,
WILLIAM H. ROBINSON.

of the work covering streets, water and sewer work. We feel that at least thirty per cent of the time of the divisions has been lost due to improper and poor equipment. These claims are no reflection on the employees. Too many citizens feel that once equipment is purchased that it lasts forever. When we are forced to operate equipment that was purchased some fifteen or twenty years back, we know it to be false economy. It therefore is the unanimous recommendation of the Board that all trucks more than five years old be disposed of and replaced with modern ones. This we propose to do under either a road machinery account or bond issue to be retired in three years, at which time the process would again be repeated. This would mean that every three years we would replace any or all equipment, except the seldom used. When you consider that it is costing in the neighborhood of \$12,000 a year to maintain obsolete and broken down trucks, we feel this to be the proper solution. Details covering the equipment on hand is included in Mr. Chapman's report.

There are on hand many tasks delegated by the Town Meeting to be done in the Public Works. These, together with ordinary maintenance on streets, sewers, water and drains, constitute more work than can be accomplished in 1947 by the present number of employees. It is the feeling of the Board that no additional work be allocated us, excepting those tasks which are actual emergencies or where it is financially expedient to spend time and money to save present installations.

While new employees have been added to the department in 1946, the increase is practically nil due to retirements and changes in personnel. A new departure this year limits to fifteen days, the time which an employee may be absent due to illness. Governed in all cases by the provisions of Civil Service, we feel that personnel has taken a definite upswing this year and should continue to improve under proper supervision.

Steps must soon be taken to provide proper housing for the number of pieces of equipment which presently are stored in locations other than the Public Works property or left outdoors for lack of garage space. This applies if the Department is forced to continue operations with present equipment. With new contemplated vehicles, consolidation might be had but we have at present only one heated structure, and that only in fair condition.

The Department was most fortunate in 1946 in being able to carry on a fairly central location for the disposal of rubbish. We appreciate the inconveniences to which the residents of Raddin Terrace were subjected. In this location we carried on dumping operations from May to December and accomplished the dual purpose of eliminating a mosquito breeding bog and a future extension of Raddin Terrace to Staff Road (formerly Ash Street). It must yet be completed by completely covering with gravel. No funds are as yet available for this purpose and we feel that this should properly be included yearly in the Rubbish and Ashes Account. We are presently using the lower Ballard Street location for disposal, but this constitutes a long and expensive haul. A more central location, properly controlled, would increase the number of loads which could be carried daily. We have been forced to operate up to four trucks a day at times for this purpose. This takes men away from other tasks and means that some other job must be neglected. We are not at this writing making comment on the proposal to have the work done by contract, detailed work not yet being completed.

No Chapter 90 road construction work was undertaken during 1946 for the reason that the Commonwealth did not award its bids until late in December. Those contracts will be carried out in 1947 using 1946 funds. For some unknown reason the Commonwealth rejected, at least

temporarily, construction on upper Central Street. However, the town appropriation is being carried on the books for possible use in 1947 along with the start of work in the Golden Hills section and the completion of the Woodbury Avenue—Hesper Street, contracts on the latter two having been awarded. The Board is unanimous in its recommendation that the major new project for Chapter 90 work in 1947 be lower Ballard Street, from Dudley Street to the Salem Turnpike, including the removal or replacement of the old bridge.

It is the intention of the Board that in 1947 our present system of surface drains be completely gone over, this not having been done since the days of the W.P.A. when several hundred men were available for the same amount of work which is expected from the present handful employed.

The Board is highly pleased with the response given on work projected under the so-called "Betterment Act" whereby the section receiving the improvement pays a share of the cost of new street construction. This system is in effect in many neighboring towns and cities and is one method whereby a reflection is had in the tax rate. At present the whole town pays for something which no one but the abutters use. It is our proposal that a proper job be done and one-half the cost be assessed back to the abutters, payment to be spread over a period of ten years. This enables the town to project its street program over a period of years without having to provide enormous sums of money to benefit a scattered few. It has been known to happen in Saugus that as much as \$4000 has been expended in order to provide some improvement for one or two properties. This represents, in the case of water, some hundreds of years before returns are seen on expenditures. Certainly, the adoption of the mentioned act or some substitute would help to decrease the overall expenditures and show some reflection in our tax levy.

The Department is currently under the supervision of Charles C. DeFranzo, formerly foreman of the sewer division. He is on a temporary assignment, under Civil Service regulations still being eligible to return to his former position. It is not the intention of the Board to create a position of assistant to the superintendent. We deem it more important to concentrate on the bookkeeping and clerical organization to properly maintain the records of the department. Situations have been found where no knowledge has been recorded on water installations, bill collections and record analysis. These are not matters which have occurred in recent years but have carried through from many years ago. Efforts are currently being made to correct and record these situations.

At the risk of being boring, we revert to the equipment problem. It has been said that "you can close your eyes to the sunshine, but the sun still shines." We find the problem of a like nature. Unless drastic steps are taken to correct a situation we know still exists, we can neither progress nor can the citizens expect top efficiency from a department which has been allowed to disintegrate, through lack of proper equipment to fill the many and varied services required of it.

We take this opportunity to express our appreciation to the many town departments and employees who have assisted us during the year and to the citizens who have been both helpful and patient. We have made efforts to attempt to satisfy as many as possible, fully realizing that what affects one of you affects each of us.

WILLIAM S. OLIVER.
C. CARROLL CUNNINGHAM,
WILLIAM H. ROBINSON,

Board of Selectmen.

Report of the Planning Board

To the Citizens of the Town of Saugus:

Your Planning Board herewith submits its report for the year of 1946. The board organized in March with Jack A. Meeker as Chairman and Clerk, H. Warren Butler, William H. Robinson, Walter L. Roy and James O. Smith. The board accepted with regret the resignations of Mr. Robinson and Mr. Smith, who due to the pressure of business in the Selectmen's office felt that it would not be fair to either the remaining members or to the town to continue on this Board. Mr. Edward E. Berrett and Mr. George A. Smith were appointed at a joint meeting of the Planning Board and the Board of Selectmen to fill out the above terms.

This Board has had one of its busiest years, and held the usual hearings on all articles pertaining to zoning found in the Town Warrant. Considerable study and investigation has been made regarding a change of government for the Town of Saugus and we recommend that the Plan filed as House Bill #1660 by Speaker Frederick Bancroft Willis be adopted.

At the request of the Board of Selectmen a thorough study was made of the voting precincts of the Town of Saugus. After careful consideration and investigation the Board made the following recommendations: To increase the number of precincts from eight to ten, and to change the present precincts' lines as shown on the map presented to the Board of Selectmen.

In conclusion we extend our appreciation to the many citizens and town departments who have assisted us during the past year.

EDWARD E. BERRETT, Chairman;
H. WARREN BUTLER,
WALTER L. ROY,
GEORGE A. SMITH,
JACK A. MEEKER, Secretary;
Planning Board.

Report of the Engineering Department

Mr. Carl E. Chapman
Acting Superintendent
Public Works Department
Saugus, Massachusetts

Dear Sir:

The following is a report of the work completed by the Engineering Department in the year 1946:

Scope of Work

Surveys, drains, water, Assessors' plans, street lines and grades, releases, Public Works estimates, plans and drawings.

Street Lines and Grades at Request of Abutters

Edison Street, Baker Street, Dudley Street, Lincoln Avenue and Fairview Avenue.

Releases

Basswood Avenue, Stone Street, Intervale Avenue, Gates Road, Greystone Road, Fairchild Avenue, Marion Road, Union Street, Wonderland Avenue, Juliette Road, Cherry Street, Hobson Street, Hillcrest Street, Hurd Avenue, Pelham Street, Clement Road, Gates Road, Greatwood Road, Bridge Street, Westford Street, Tuttle Street, Old County Road, Glen Park Avenue, Glendale Avenue.

Drains

Work on drains was performed on the following streets:

Lincoln Avenue	Denver Street
Hayden Road	Centennial Avenue

Plans, Drawings and Tracings

Many plans, tracing and drawings were made during the year, consisting of Land Court records and plans on file at the Registry of Deeds in Salem revising assessment sheets for the Assessors and preparing drawings for other departments.

Acceptance Plans

Plans and profiles for the following streets were made for acceptance:

Basswood Avenue	Clement Road
Fairchild Avenue	Westford Street
Hobson Street	Glen Park Avenue
Pelham Street	Intervale Avenue
Bridge Street	Cherry Street
Glendale Avenue	Hurd Avenue
Stone Street	Gates Road
Wonderland Avenue	Tuttle Street
Hillcrest Street	

Sewer

Plans and profile were made for the following streets: Riverside Court, Vincent Street, Stocker Street, Summer Street for a distance of 500 lin. ft., Lincoln Court, Pearson Street construction, Lincoln Avenue from Myrtle Street to Cliftondale Square.

Water

Plans and estimates of the following streets: School Street extension, Fiske Road, Prospect Avenue, Basswood Avenue, Stevens Avenue and Pearson Street.

Respectfully submitted,

HENRY C. SEAVER,

Acting Town Engineer.

Report of the Superintendent of Public Works

To the Honorable Board of Selectmen
Town Hall
Saugus, Massachusetts.

Gentlemen:

I herewith submit to you the annual report of the Public Works Department for the year 1946. At the close of business December 31, 1946, the various divisions of the department had unpaid bills as follows: Highway Division,, \$932.02; Water Maintenance, \$627.81; Engineers, \$1.50. The divisions returned to the Surplus Account the following amounts: Public Works Expense, \$1.10; Sewer Division, \$.20; Highway Division, \$8.94; Machinery Account, \$95.75; Water Extension, \$1,320.85; Hydrants, Gates and Meters, \$2,148.66; a total of \$3,575.50. The amount of \$4,115.12 remains unpaid on the Water Purchase with \$179.23 returned to surplus. The amount of \$1,514.02 remains unpaid on Street Lighting with \$868.83 returned to surplus.

PUBLIC WORKS ADMINISTRATION

All administrative duties and records have been kept for the various divisions of the department. Commitments have been compiled and submitted to the Collector and Assessors' departments. A cost card system of the many jobs performed has been kept up to date and is on file in the department. I have in the past, through budgets and reports, endeavored to obtain an additional clerk for this office due to the increased duties and for record system of truck and equipment maintenance and stock supplies. The Superintendent would then have more time to devote to the work of the various divisions. In December the Selectmen voted to engage a clerk and one was obtained through the Civil Service on December 16, 1946.

ASH DIVISION

The work of this division constantly increases by the addition of streets and locations upon request of citizens to the Board of Selectmen. Although we now cover a large portion of the town, representing many miles of streets, there are sections where no collections are made. Because of increased schedules one truck and crew cannot collect the amount of materials that are put out each week and it is necessary to use the highway men for one or two days weekly most of the year.

The new truck purchased in 1945 has proven fast, efficient and clean in the operation of this work. Danger of injury to the men and fires in the truck are reduced to a minimum. The problem now confronting this department is locations for dumping areas. Under present conditions there should be two or more places to dump in order to decrease the mileage and increase the number of loads per day. A new schedule was put into effect in 1946 so that collections are now made on five days per week. Even with the assistance of additional crews it has been necessary to work overtime on Saturdays. The location at Raddin Terrace was excellent for dumping purposes. This swamp has been filled and kept covered as much as possible. This material will sink in time so that more can be dumped and covered and later the town can extend this road through to Ash Street.

HIGHWAY DIVISION

Work of this division has been handicapped throughout the year in its maintenance work by the following: 1. Digging and delivering gravel to streets; 2. Hurricane of June 8th; 3. Lack of a mechanic from May to October; 4. Taking care of Raddin Terrace dump; 5. Putting additional trucks and crews on Ash Collection. The work has been performed by a crew of one foreman and at times six to eight men. Assistance from this crew has been given to the water maintenance. On some of the work we have used the sewer crew. The following is some of the work accomplished during the year: RESURFACING: Bristow Street, Cleveland Avenue, Jefferson Avenue (in part), Lincoln Avenue from Central Street to Morton Avenue, Newcombe Avenue, Oaklandvale Avenue, Lodge Avenue, Bennett Avenue, Puritan Road, Overlea Avenue, School Street, Spring Street, Waverly Avenue, Overlook Terrace, Great Woods Road and Wamesit Avenue. BUILD SURFACE: DeSoto Street, Oakcrest Street, Riverside Court, Spencer Avenue, Warren Street and Wickford Street (in part). These were built from the base by removing boulders, loam, bushes and trees, filling with gravel, grading and rolling and included a surface of asphalt and pea-stone. Guild Road was started under a special appropriation. This work was stopped to await the completion of the Lincoln Avenue surface drain which ties in at Guild Road. During the winter this gravel will pack solidly and be ready for a surface job.

To enumerate the many other jobs of this division would take up considerable space in this report. Repair and maintenance work was continued throughout the year, of which information can be obtained from the department cost records. Included are patching streets, repairing sidewalks, bridges, brooks, gutters and culverts; cleaning basins and drains, sweeping streets and squares; mowing greens.

Most of our streets are of secondary construction and are not permanent. Much time and materials must be put on them in patching. Many miscellaneous jobs were performed of which a record is kept on the cost cards. With this small crew it is impossible to do all the regular maintenance work, emergency work, work of special articles and the many requests to the Board of Selectmen.

RECOMMENDATIONS: That sufficient new trucks and equipment be purchased so that this division and others can operate more efficiently. That no new work or project be started unless by vote of the Town Meeting with direct appropriations for same. That each article for street acceptance call for an appropriation for work by the regular employees or sufficient funds to let them out to contract. That a study be made by a committee with the hope that a proper personnel be set up for highway work and for repair and maintenance of trucks and equipment.

WATER DIVISION

The work of this division is increasing each year. The town has on its water records 3825 metered accounts, 78 fixture accounts and 30 summer services. A large percent of the services have been installed for over twenty-five years, many of them installed by the City of Lynn. Because of age, these services are now causing much trouble and the division is constantly repairing or replacing them. Up to December 11th the crew had installed 36 new services, 42 renewal of services and the department had billed out for 79 emergency repairs. Approximately 150 blow-outs of service lines were made and many turn ons and turn offs, all of which have been billed to property owners. Much more of this work could have been done if it were not for the water extension construction done during the year. Many hydrants in various sections of the town, especially on dead end streets, have been flushed at least once during the season with

some of them being flushed two and three times. The clogged condition of our old mains cause much trouble in the flow of water to the houses. This crew also installed 16 curb boxes and 12 main gate boxes.

Our meter men have repaired, tested and reinstalled 288 meters in 1946 and if parts had been available many more would have been reinstalled. In 1947 it may be possible that these parts will be coming through from the manufacturers and if so a sufficient appropriation should be made in order that this work can be carried on. Many of the meters taken out are in such condition that the cost of repair would almost equal the cost of a new meter.

The work of this division is performed as follows: Meters—Three men. Maintenance; Service and Extension—One foreman and four men. The General Foreman covers all divisions of this department with most of his time on the water division. All men of the department are interchangeable between divisions and this practice is used when necessary.

The water division is the main enterprise of the town departments. The neglect that it has had over a period of twenty-five years or more is constantly showing up. A water main or hydrant break shows the fact that gates and valves put in many years ago do not work. It is difficult under such conditions to make repair work. During the past five years, with any new hydrant or replacement we have installed a valve so that repairs can be made without shutting off large areas of consumers from use of water. The crew is not large enough to do maintenance work on these valves and gates. Each should be dug up—cleaned and repaired and tested in order to know that they will do the work they are installed for.

Water main breaks have shown that the size of the mains is not supplying the amount it should, due to corrosion. Pumping water through such mains is costly because of the lowered capacity. The flow of water is greatly impeded by this corrosion. A program should be started to clean mains each year. There are over seven miles of 4 inch water main, most of which is in congested districts. They should be replaced by larger mains. A large fire would be disastrous to the town.

In 1946 the sum of \$1,400.00 was added to the water maintenance to install an Electro-Rust Proofing system in our standpipe. Due to the increased amount of extra work such as water extension, this money was used for water maintenance work. Repairs to equipment and trucks were costly. Such extra jobs as the Fiske Avenue extension, Prospect Avenue extension, School Street extension, Stevens Avenue extension, Basswood Avenue extension and Pearson Street extension, without direct appropriation, increased the expenditures of the division. I feel as did the Selectmen that these jobs were necessary because of lack of water at some location and of new houses at other locations. When budgets are submitted you can not anticipate what extra work must be done in that year. Our appropriation was not large enough for this extra work. At the time of the Special Town Meeting it was my intention to ask for transfer of funds, but the Selectmen were told that there was none available and that the Reserve Fund had been allocated. Though this money was used for water work and we had a sum of \$1,652.65 in unpaid bills for the maintenance division of the department, we turned back the sum of \$3,575.50 in unexpended funds for these divisions. In order to install this system of Electro-Rust Proofing in the standpipe I was informed that it would be necessary to clean the standpipe before installation. This would bring the cost to between \$5,500.00 and \$6,000.00.

RECOMMENDATIONS: During the past year, with all the trouble we have had with breakdown of trucks I recommend to the Board of Selectmen that we ask for sufficient funds in a machinery and equipment appropriation to purchase a truck with special body for water main-

tenance work; this truck to have a compressor, pump and winch, thereby eliminating having to use two or three trucks on this work. I again recommend either a reduction in the amount of water allowed for a \$10.00 minimum charge per year or that the rate be raised. Also that a hydrant rental be set up, as in many towns and cities, for payment of water used in fire fighting and moth control. This is one of the greatest losses in this division. Meters should be owned by the town and not by the property owner. A check for cleaning and repair should be made on each at least once every two years and costs of same billed to the customer.

SNOW AND ICE REMOVAL

From January 1, 1946, to March 31, 1946, we experienced one of the worst seasons for storms and ice conditions that we have had in many years, according to the Weather Bureau records. We must plow, sand and take care of flooded conditions with old wornout equipment. We must hire extra trucks with plow equipment and bulldozers to assist in this work. Our own equipment is constantly breaking down and is costly to repair. An investigation of this department by a committee in 1946 brought out the conditions of this old equipment and the lack of the proper number of mechanics and maintenance men to perform the repair work, not only on this old equipment but also if we had all new equipment. A monthly maintenance check-up on new equipment by the proper number of employees for this work would save the town considerable money each year. Equipment should be turned in on the purchase of new every three years, thereby saving on much repair work and getting a good value for the town in turn-ins.

The 1947 appropriation should be large enough to make repairs to plows, purchase salt, calcium-chloride and sand for stock piles as well as the expense for storms in November and December.

ENGINEERS

The report of the Acting Town Engineer for work performed in 1946 will be found on another page.

SEWER DIVISION

Work of sewer construction for Jasper and Pearson Streets was completed this year. In 1947 these streets should be resurfaced. As in the past the men on this crew had to help on drainage and road work and each man has proved of great value on all the work assigned to them. The Highway Division furnishes truck drivers and shovel operators. For 1947 there will probably be a proposed sewer main for Summer Street and for the High School. The Board of Health has many locations where sewer mains should be installed. To do this work rapidly and well will necessitate additional employees or that it be done by contract. If approval of the Civil Service can be obtained, I recommend that this crew be placed on a permanent basis.

GENERAL

I have stated recommendations on the several divisions of the department. A comparison of the number of employees in this department with other towns will show that we are undermanned. Many cities and towns have separate departments with separate Boards and Superintendents. In most of them a single department has found it necessary to have more employees, than does the entire Public Works of Saugus. I sincerely hope that the town will appropriate enough funds to provide the department with additional employees. At least a shovel operator and

another mechanic should be engaged. Placing the Ash and Rubbish Removal on contract would provide three more men for construction and maintenance work.

I wish to express my appreciation to all department heads and to the various boards who have co-operated with the department throughout the year.

Respectfully submitted,

CARL E. CHAPMAN,
Acting Superintendent.

During the year 1946 the Fire Department responded to 813 alarms and calls for fires and other duties. There were 177 Box alarms; 636 telephone calls. 70 of these box alarms were false or needless.

The apparatus traveled a total of 2,914 miles in responding to calls. Engine No. 1 traveled 5.5 miles, Engine No. 2 traveled 433.6 miles, Engine No. 3, 584.2 miles, Engine No. 4 traveled 1362.9 miles; Ladder No. 1 traveled 527.8 miles. The Chief's car traveled 7.196 miles in responding to alarms of fire and in the performance of other duties.

The assessed valuation of buildings, autos, trucks, the insurance on buildings, automobiles and their contents, etc., were as nearly as possible ascertained as follows:

Assessed valuation of buildings, autos, trucks, etc.	\$100,365.00
Insurance on buildings, etc.	250,850.00
Loss on buildings, motor vehicles, etc.	6,597.00
Insurance paid for losses on buildings, etc.	5,732.00
Estimated value of contents	267,800.00
Insurance on contents	180,750.00
Loss on contents	87,343.00
Insurance paid for loss on contents	1,518.00

During the year 19,750 feet of 2½ inch hose, 18,700 feet of 1½ inch hose, 127,200 feet of ¾ inch hose was used to extinguish fires, a total of 165,700 feet. Of the above used hose, 131,900 feet was used at brush, grass and dump fires. There were 224 feet of ladders used and 24 tanks of oxygen and other First Aid equipment used.

The Fire Apparatus Engine No. 2 is in good condition, Engine No. 3 is in fine condition, Engine No. 4 is in fine condition. The Ladder truck is in fair condition, being sixteen years old. It should be replaced with a new Junior Aerial Ladder Truck. The Chief's car is in fair condition.

The Fire Department has done excellent work in keeping the fire loss down to a minimum, approximately \$93,940.00 with the valued amount of property involved in fire being about \$368,165.00. It should be noted that the department has to protect a large territory, nearly 11½ square miles with a minimum amount of men to man the apparatus and extinguish fires.

We recommend that the program calling for the installation of new hydrants every year be continued as there are several places in the town where hydrants are few and far between.

In conclusion we wish to thank the Honorable Board of Selectmen, Superintendent of the Public Works, the Chief of Police, all Town Officials and the Citizens of Saugus who by their cooperation have aided this department in maintaining a high degree of efficiency.

Signed by the CHIEF,

George B. Drew.

Signed by the BOARD OF FIRE ENGINEERS,

James B. Boyle, Chairman,
 Geo. F. Gosselin, Secretary,

Report of the Cemetery Commissioners

January 20, 1947.

To the Citizens and Taxpayers of Saugus:

The Board of Cemetery Commissioners would like to express their appreciation to the officials and others of the town who have cooperated with our department during the year 1946; especially do we want to extend our appreciation to the Superintendent and employees at the Riverside Cemetery, who have done such an excellent job. Only with this splendid cooperation have we been able to discharge our duties as Commissioners to the taxpayers.

It is not our intention to bore you in this report with a lot of figures which are available elsewhere in the report; however, we do desire to point out that income for the year 1946 in the Cemetery Department has exceeded monies appropriated at the Annual Town Meeting for the year 1946; this of course is exclusive of the appropriation to finish the Veterans' Lot. The Commissioners anticipate that this project should be completed in time for dedication on Memorial Day.

The development of the Montgomery property for burial purposes has been started and should be carried on during the year 1947; unless this is done, space for burial purposes, which the town must provide under the Public Health Laws, will not be available.

As to this project it is only fair to state that any monies appropriated for this purpose are a solid investment, as can be determined by an examination of the records. A fair analysis convinces the Commissioners that the town receives at least three dollars (\$3.00) for every dollar invested. We feel sure that the Finance Committee is aware of this and will govern its recommendation on our appropriation with that in mind.

As to the raises recommended for the personnel in our Department, we feel that they are reasonable and just and do not exceed that paid to other town employees doing similar work. The Commissioners feel that we have a very faithful and sincere crew of men working at the Riverside Cemetery.

In closing, we again strongly stress that any monies held in trust for the Cemetery Department be invested in accordance with the law so as to derive the highest possible income. Our every interest will be devoted to giving the town a continued efficient administration in the Cemetery Department in order that all costs to the town may be kept at a minimum.

Respectfully submitted,

WILLIAM S. ROCKHILL, Chairman;
BENJAMIN FULLERTON,
PAUL HAYES,

Cemetery Commissioners.

Report of the Board of Health

To the Citizens of the Town of Saugus:

The Board of Health herewith submits its annual report for the year ending December 31, 1946.

The health of the public in general, from the standpoint of contagious diseases, has been most excellent, which fact in itself lends proof to the feeling that, as has been stated before, the appropriation of our department is well expended in giving our citizens that most valuable possession, life and good health.

By constant effort, quarantine and search for contagious disease on the part of the members and agents of the department, we find at present we have but five patients in hospitals for the treatment of tuberculosis—a record which in times of stress as at present, speaks for itself. The number of new cases of tuberculosis remains about the same for the past several years, which is to be expected.

The Clinic for the prevention of diphtheria has functioned as one of our most essential and vital efforts toward the ultimate elimination of this dread disease. Diphtheria having been on the increase in the cities and towns of the Commonwealth, a request was made by the Department of Public Health to the local Board of Health, to appeal to the public to have all children who had not been inoculated against diphtheria in the last two years, to go to their family doctor for one booster dose, all others to have the three regular inoculations for the same.

Due to the diligence of the school nurse and public health nurse in the selection of cases for care of the teeth and interest in the future health and welfare of the children of the town, a total of 507 were treated in our Dental Clinic.

The problem of proper disposal of sewerage in the town is still in some areas not as yet relieved from that chaotic condition which has existed for so many years while other areas covered by our new sewer system have found it to be a blessing in disguise. The Board of Health sincerely hope that further extension of such system will be possible and with all due haste be extended to those areas most desperately in need of relief.

We were very fortunate to have been able to hold a Child Welfare Conference conducted by the Massachusetts Department of Public Health and assisted by the nurse of the Saugus Board of Health, through the efforts of the Roby Parent Teachers' Association and local Board of Health.

The garbage contract which came up for renewal this year found several new bidders, the previous contractor failing to submit a bid. After careful consideration and much deliberation, with personal investigation by members of the Board, the contract was finally awarded to Henry Paulino of Peabody. Numerous complaints were received at first, which was to be expected, but have been reduced to a minimum at present.

The Board of Health appreciates the honest endeavor of its agents, their dependability and interest in carrying on the work of the department, which has increased and redoubled itself many times in the past few years, due in part to the Board's desire to function as a department worthy of its purpose in all phases of preventative medicine, and to com-

IN MEMORIAM

RICHARD J. SPENCER

August 24, 1890 — July 16, 1946

Appointed to Board of Health, June, 1933

WHEREAS—

Almighty God in His infinite plan has called RICHARD J. SPENCER to his eternal reward; and

WHEREAS—

RICHARD J. SPENCER gave more than thirteen years of his life as a member of the Board of Health of the Town of Saugus; and

WHEREAS—

His service was honest, faithful and unselfish . . .

BE IT HEREBY RESOLVED—

That the remaining members of the Board of Health of the Town of Saugus, in session this fifth day of August, 1946, do sincerely appreciate the services of our fellow member, RICHARD J. SPENCER, and hereby vote that these resolutions be spread upon our official records and that a copy of the same be sent to his bereaved family.

Respectfully submitted,

DR. JAMES A. CLARK, Chairman;
DR. LEROY C. FURBUSH, Health Officer;
Mr. ARTHUR W. PRICE, Secretary.

Gypsy Moth Department

To the Honorable Board of Selectmen:

The following is a report of work accomplished and condition of the town in regard to insect pests.

We found no brown-tails at all and it is my belief this insect is cleared up. The tent-caterpillar infestations were also very light. However, the (fall web-worm) which is often mistaken for the tent has increased; this is probably due to the fact that they are not considered as destructive pests, as they only feed within their webs and do no real damage. No provision is made to fight them; however, we cut and burned several truck loads from along Winter, Main and other streets. The gypsy-moth situation is only slightly more than last year; Saugus Center, East Saugus and Clifftondale are clean, but the North Saugus and Golden Hills sections are more heavily infested due to the necessity of working the crew cleaning up the June 8th storm damage. We were not able to do as much spraying as we would have liked to do; however, we sprayed nearly forty-two thousand gallons of arsenic and D.D.T.

We continued our reforestation project at the town farm, planting thirty-five hundred trees, making a total of twelve thousand for that area. This is being done with the aid of the Boy Scouts. Brush cutting was carried on at Winter Street, Clinton Avenue, Westland Avenue, Adams Avenue, Main Street, Walnut Street, DeSoto Street, Appleton Street and many other spots. This work was planned not only to destroy insect pests but to also aid the Public Works Department to keep roads clear and open up dangerous blind corners. We also spent some time on the eradication of poison ivy, several bad spots being treated in different parts of the town. In comparison with nearby towns, Saugus is very clean, while some of our neighbors are infested with Japanese beetle, Oriental moth and brown-tail moth, we do not have any of these.

In closing, may I thank all town departments for their cooperation during the year.

Respectfully submitted,

GEORGE L. PEARCE,
Superintendent of Gypsy Moth.

Soldiers' Relief Department

December 31, 1946.

To the Honorable Board of Selectmen
Town Hall
Saugus, Massachusetts
Gentlemen:

At the close of my sixth year as Soldiers' Relief Agent, I am pleased to summarize briefly the working of the department under which I have the honor to serve.

The year 1946 carried along with it many problems and perplexities which naturally accompanies any period of reconversion or rehabilitation; however, having passed the major difficulties in readjustment, it is hoped that the problems to come will be less varied, with brighter future for the returning veteran.

It is unfortunate that the appropriation made at the Town Meeting last spring was exceeded and necessity demanded a request for additional funds. This is attributable to the heavy drain made on the department at the time of the work stoppage at the General Electric Co. This feature alone cost the town between four and five thousand dollars. The increased cost of living has also made it necessary to make additional allowances in the individual budgets.

Early in the spring of last year the Massachusetts Legislature became aware of the current demands for aid and assistance to the veteran and his dependent and new laws were enacted to help relieve the situation. Beginning with January 1st of 1947, all former separations of aid given to the veteran and his dependent such as State Aid, Military Aid, and Soldiers' Relief will be consolidated under one heading of Veterans' Benefits. In this manner, the Commonwealth steps in and reimburses the towns and cities one-half of the amounts approved of by the Commissioner of Veterans' Benefits of the Commonwealth, applications first having been made to him for approval or rejection. Budgets are standardized and returns for money expended will be made on the November following the year in which the money is expended. The Town of Saugus will first benefit under the new returns in November of 1948. Movement is on foot at the State House to have returns made earlier if possible.

With the information as given above, it will be noted that the amount asked for 1947 under Veterans' Benefits is less than the total amount expended under the different headings this past year.

This office is up to date in information of benefit to the veteran and assistance has been given to a great number of veterans and their families, either financially or in making applications for the State Bonus and Terminal Leave pay, notarizing papers, and aiding in securing pension allowances.

I wish to thank all the departments in the town hall for their help with pertinent matters and extend to your honored body my sincere appreciation for your hearty cooperation during the past year.

Respectfully,

NEWELL V. BARTLETT,
Veterans' Agent.

Tree Warden's Report

To the Citizens of Saugus:

The following is a report of our activities for the year just ended.

We continued our tree planting project of the previous years and placed two hundred and seven maples on various streets. We hope to continue this work in 1947 if funds are voted. We also pruned out trees on a number of streets and also removed fourteen dangerous trees. There are also several topped and ready to be removed in different parts of the town. These were held up by lack of funds, as all available money was needed to clean up the storm damage of June 8th. This storm hit Saugus the hardest of any town of the North Shore and created much damage, both in felling trees, tearing and destroying the limbs. Some cannot be repaired and must be removed.

The spraying of Elm trees for the Elm Beetle was done with a new spray, consisting of lead arsenic, pyrethium with D.D.T. added. Results were very good as very little foliage showed signs of feeding. We believe with these new insecticides this pest can be entirely erased.

In closing may I publicly thank the New England Tel. and Tel. Company and the Lynn Gas & Electric Company and all others who assisted me in cleaning up the storm debris.

Respectfully submitted,

GEORGE L. PEARCE,

Tree Warden.

Report of Town Accountant

December 31, 1946.

To the Honorable Board of Selectmen
Town Hall
Saugus, Massachusetts
Gentlemen:

I herewith submit the annual report of the Town Accountant for the year 1946. The report is made in accordance with the State System of Accounting as is set forth in the following schedules. I respectfully submit, for your consideration, an explanation of some of the accounts.

1. GENERAL FINANCIAL CONDITION

Balance Sheet and Appropriation Accounts:

After closing the books at the end of the year there is a surplus revenue amounting to \$87,861.01 as compared to \$7,672.79 in 1945. This is accounted for in part by the fact that the actual receipts for the year were more than the estimated amount. The various appropriation accounts had unexpended balances amounting to \$23,116.19 which reverted to surplus revenue. This amount reflects over \$1.25 on the tax rate.

Temporary Loans:

As in the past few years the outstanding temporary loans in anticipation of taxes remains at \$200,000.00 which has been the normal amount. Please note that the cash balance on December 31, 1946, is \$268,856.65 or \$124,423.47 more than at the beginning of the year.

Tax Title Loans:

The sum of \$43,543.11 was paid on the outstanding tax title loans held by the Commonwealth of Massachusetts on tax titles. It was not necessary to borrow in 1946. The total of such loans outstanding to date is \$87,548.67 which shows a healthy financial improvement over the past few years. The 1946 payments were \$7,831.64 in excess of that for the year 1945.

Tax Possessions:

The foreclosure of tax titles has continued satisfactorily during the year and at the close of business 1946 there were 1196 parcels remaining unsold and carried on the books of the town in the amount of \$127,850.68 value. A continuance of appropriation to the Town Treasurer to carry on this program will help materially the financial condition.

Town Indebtedness:

The total amount of the town indebtedness was reduced from \$730,091.78 to \$664,548.67, a reduction of \$65,543.11 during the past year or \$17,826.08 over that of the year 1945. The total bonded indebtedness is \$377,000.00.

2. UNPAID BILLS

On closing the books of the town it was found that the following bills remain unpaid:

Board of Selectmen	\$ 12.56
Police Department	146.68
Town Hall	130.84
O. A. A.—Aid	31.11
Welfare	4,288.55
Highway	1,023.34
Water Maintenance	627.81
Engineering	1.50
Water Purchase	4,115.12
Street Lighting	1,514.02

\$11,891.53

3. WITHHOLDING TAX DEDUCTIONS

The provisions of the Federal Revenue Act relative to deductions from the gross earnings of each town employee for income tax purposes has been complied with. The total amount of withholding tax deductions turned over to the Collector of Internal Revenue during 1946 amounted to \$47,910.14.

Balance sheets and detailed financial reports have been furnished to various institutions.

In conclusion I wish to thank the Honorable Board of Selectmen, the State Auditors, department heads and individuals for their cooperation during the year. I personally regret the passing of the Town Accountant, Ralph Quirk, whom I found to be helpful and courteous at all times in the business of the town. He had earned an excellent reputation with the State Department of Accounts as having one of the most efficient accounting departments in the Commonwealth. His passing is a loss that will remain in our memories for many years.

Respectfully submitted,

CARL E. CHAPMAN,
Acting Town Accountant.

In accordance with the provisions of Section 50 of Chapter 41 of the General Laws, I have verified the cash on hand December 31, 1946, by actual count and the cash in the banks was certified by reconciliation of the outstanding checks with the books and bank statement. In accordance with the provisions of Section 53 of Chapter 41 of the General Laws, I have verified the various Trust Funds and special deposits as of December 31, 1946, which are as follows:

Report of an Audit of the Accounts of the Town of Saugus

For the Period from October 25, 1945, to September 30, 1946

THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF CORPORATIONS
AND TAXATION

DIVISION OF ACCOUNTS

STATE HOUSE, BOSTON

November 29, 1946.

To the Board of Selectmen
Mr. William S. Oliver, Chairman
Saugus, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Town of Saugus for the period from October 25, 1945, to September 30, 1946, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,
Director of Accounts.

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the Town of Saugus for the period from October 25, 1945, the date of the previous examination, to September 30, 1946, and submit the following report thereon:

An examination and verification was made of the recorded financial transactions of the town as shown on the books on the departments receiving or disbursing money or committing bills for collection.

The books and accounts of the town accountant were examined and checked with the treasurer's books and with the records of the several departments collecting money for the town.

The appropriations and transfers as entered in the ledger were checked with the town clerk's record of appropriations voted by the town.

The ledger was analyzed, the necessary adjusting entries were made, and a balance sheet was prepared showing the financial condition of the town on September 30, 1946.

It was again noted that payments made by the public welfare department for graves of welfare recipients included amounts for establishing perpetual care funds, although, as was pointed out in the course of

the previous audit, there is no authority under the General Laws for the use of public funds for such a purpose.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the Collector's records of payments to the Treasurer, with the records in the several departments collecting money for the town, and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants to the treasurer. The cash balance on September 30, 1946 was proved by actual count of the cash in office and by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited.

The payments on account of debt and interest were verified by comparison with the amounts falling due and with the cancelled securities and coupons on file.

The transactions of the several trust, investment, and retirement funds in the custody of the town treasurer were verified, and the securities and savings bank books representing the investment of these funds were personally examined and listed.

The deductions from employees' salaries for federal taxes were listed and reconciled with the amounts due and paid to the federal government.

The records of tax title redemptions and tax titles taken for the town, as well as of tax title foreclosures, were checked in detail and all outstanding tax titles and tax possessions on hand were listed and proved. Verification of the tax titles, as listed, was made by comparison with the records in the office of the Registry of Deeds.

It was noted that of the 850 tax titles on hand 687 were taken in the years from 1927 to 1944, inclusive, in which connection it is again recommended that proceedings be started to foreclose the rights of redemption on all tax titles held over two years, as required by law.

The books and accounts of the town collector were examined and checked. The poll, property, and motor vehicle excise taxes and special assessments, together with departmental and water accounts receivable outstanding according to the previous examination, were audited, and all subsequent commitment lists were added and reconciled with the warrants for their collection .

The collector's cash books were footed, the payments to the treasurer by the collector were checked with the treasurer's books, the abatements were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and proved.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

The assessors' records of abatements granted were reconciled with the collector's and accountant's books. The assessors' warrants for commitment of taxes, assessments, and water liens added to taxes were examined and checked with the detailed lists.

The records of apportioned assessments were examined, while the apportioned assessments not due and suspended were listed and reconciled with the accountant's controlling accounts.

The records of dog, sporting, and town licenses issued by the town clerk and of miscellaneous collections from permits, etc., were examined and checked, the payments to the Division of Fisheries and Game and to the town being verified.

The surety bonds of the officials bonded for the faithful performance of their duties were examined and found to be in proper form.

The accounts of the sealer of weights and measures and plumbing inspector, of the police, health, public welfare, school, and cemetery departments, as well as of all other departments collecting money for the town or committing bills for collection, were examined and checked, and payments to the treasurer were compared with the treasurer's cash book.

It is recommended that the sealer of weights and measures, the plumbing inspector, as well as the police and health departments, pay over to the treasurer all sums collected at least once each month.

In addition to the balance sheet referred to, there are appended to this report tables showing a reconciliation of the treasurer's cash, summaries of the tax, assessment, tax title, tax possession, departmental, and water accounts as well as tables showing the condition and transactions of the trust, investment, and retirement funds.

During the progress of the audit, cooperation was received from all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

Detailed tables showing the financial transactions of the several departments and balance sheet as of October 24, 1945, are on file in the office of the Town Clerk and Town Accountant, Town Hall, Saugus, Massachusetts.

RALPH QUIRK

TOWN ACCOUNTANT

The year 1946 witnessed the passing of one of the most beloved of our town officials. Ralph Quirk, a truly efficient Town Accountant, is with us no more. I can testify to his efficiency, his honesty, and his character. He was much more than a Town Accountant. He was a friend to each who sought his advice and counsel. He could do more work with less friction than any man I ever knew.

The Town has lost the services of one of its best town officials. The other side of the thin veil which separates us will be enriched by his coming. We, who survive him, sorely suffer by his passing.

Superintendent of Schools.

Report of the Superintendent of Schools

To the Honorable School Committee and Citizens of Saugus:

It is both the duty and the privilege of the Superintendent of Schools to submit his fourteenth annual report for the School Department, the same being the fifty-fourth annual report.

The 1946 Budget

At the annual March Town Meeting of 1946 the School Department was voted a General Budget of \$300,000.00 and a Repair Budget of \$10,000.00.

In addition to the above the sum of \$2,500.00 was voted for the maintenance of the Stadium and, under a special article, the sum of \$7,500.00 for the installation of a new boiler and oil burner at the Roby School.

At a subsequent special town meeting the sum of \$1,000.00 was voted added to the Repair Budget for damage to the Armitage School caused by the storm of June 8, 1946 and the sum of \$1,577.00 to complete the cost of installing the new boiler and oil burner at the Roby School.

Net 1946 Education Cost

Although the sum of \$300,000.00 (General Budget) and \$11,000.00 (Repair Budget), or a total of \$311,000.00, was appropriated in 1946 for the ordinary expenses of education, this sum does not represent the actual amount of money expended by the taxpayers of Saugus for education (ordinary School Department expenditures).

The following refunds, as far as can be ascertained at the writing of this report, have been returned to the town treasury during the year 1946:

State reimbursement (or State Aid—Education)	\$24,977.50
Tuition from City of Boston (Boston Wards)	153.64
Tuition from Commonwealth (State Wards)	828.20
Miscellaneous Income	88.34
Out of Town Tuition	284.84
Insurance (Armitage School—storm damage)	3,392.43
Unexpended Balance—General Budget	28.40
Unexpended Balance—Repair Budget	3.70
	<hr/>
	\$29,757.05

This total sum of \$29,757.05 in various forms of refunds lessens the cost of education to the taxpayers of Saugus by that amount. To find the net cost we subtract this sum of \$29,757.05 from the total amount appropriated (\$311,000.00). The difference, or \$281,242.95, represents the net cost for the year 1946.

Stadium Budget

As stated above the March 1946 Annual Town Meeting voted the sum of \$2,500.00 to the School Department for the maintenance of the Stadium.

A new football gridiron has been constructed at a cost of \$1,840.00, of this amount the sum of \$1,400.00 was paid out of athletic finances and

the sum of \$440.00 out of the \$2,500.00 Stadium appropriation. If the new gridiron is properly maintained and used for games only it will last for many years. If it is used for practice sessions the money will have been wasted.

The new football gridiron will be one of the best hereabouts and will be a credit to the Town of Saugus. Not many schools would willingly pay out of athletic finances over two-thirds of the total cost of building a football gridiron for its high school youth.

Through the alertness of Chairman George A. McCarrier of the School Committee the old bleachers were sold for the sum of \$500.00. These old wooden bleachers were no longer safe for use. The continued use of them would have been criminal and would have resulted in certain injury to persons and law-suits against the town. This \$500.00 was turned in to the treasurer of the town.

The School Committee also returned to the town treasury the sum of \$506.70 unexpended from the appropriation of \$2,500.00.

In other words the net cost of the operation of the Stadium to the taxpayers in 1946 was \$1,493.30. In addition the town now has a first class football gridiron.

As far as the Stadium is concerned there is one definite need in 1947. New bleachers must be purchased or visiting football fans will have no place to sit. The School Committee feels that the sum of \$500.00 (realized from the sale of the old bleachers) plus the sum of \$506.70 (returned unexpended from the \$2,500.00 appropriation) should be reappropriated for the purchase of new bleachers. This amount would be insufficient but could be added to a larger appropriation.

The School Committee is of the opinion that no citizen of Saugus desires visiting football fans to stand or sit on the grass when Saugus High School plays host to a visiting football rival.

Death, during 1946, claimed Mr. John E. Berrett, the conscientious caretaker of the Stadium. His place will not be easy to fill and he will be missed by officials, coaches, players, and fans.

The 1947 Budget

The School Committee has requested a General Budget of \$357,384.38 for the year 1947. This represents an increase of \$57,384.38 over the General Budget of 1946. Of this increase approximately \$50,000.00 is for increased salaries for teachers and other school personnel. The remaining, approximately \$7,384.38, is to cover greatly increased cost of school textbooks, supplies, equipment, and fuel.

For the two above reasons general budgets of School Departments have substantially increased in every city and town in the Commonwealth. There is no alternative if public school systems are to function efficiently. It is probable that these increased costs will eventually be more than absorbed by a program of vastly increased State Aid for local education now about to be discussed by the 1947 Legislature.

New Salary Schedule

For many years school teachers have been the poorest paid of any group of professional workers. Teachers in Saugus have also been paid less than teachers in most communities of comparable size. The result has been that, over a period of years, Saugus has lost many excellent teachers. It became apparent during the past year that substantial

salary increases must be given to school personnel if our town was to even reasonably compete with other communities. The staggering increase in the cost of living made the solution of this problem all the more urgent.

I have talked with Saugus citizens in all walks of life and I have not found one who would not frankly admit that employees of the School Department, considering time and money spent for professional qualifications, were by far the poorest paid of all of our town employees.

Under Massachusetts law the School Committee, and the School Committee alone, has the responsibility of establishing the salaries of the teachers under its jurisdiction. It was, therefore, clear that the School Committee must establish new maximum salaries and new minimum salaries wherever possible. This the School Committee has done by unanimous vote, setting January 1, 1947 as the date when all new salaries are to be effective. The actual paying of the new salaries was suspended pending the annual town meeting of March 1947. As a part of the vote of the School Committee all temporary "cost of living increases" were abolished as of January 1, 1947.

The four largest groups of school department employees are as follows:

- (a) High School teachers.
- (b) Junior High School teachers.
- (c) Elementary School teachers.
- (d) Building Custodians or Janitors .

I list below the new salary schedules for the above voted by the School Committee and effective January 1, 1947.

	Minimum	Maximum
High School Teachers	\$2,100.00	\$2,900.00
Junior High School Teachers	1,900.00	2,700.00
Elementary School Teachers	1,700.00	2,400.00

From the above it can be readily seen that a teacher with no previous teaching experience (a High School teacher) would be started at a salary of \$2,100.00. Such a teacher would then be increased by \$100.00 each year until he reached the maximum salary of \$2,900.00. This teacher would have to remain in Saugus eight full years before attaining the maximum salary. Such a schedule provides a teacher with an incentive to remain since he can see a chance for financial advancement.

In the case of the building custodians no minimum salaries were set. It was obvious that no custodians could be hired at the minimum salary which could be established. Accordingly only new maximum salaries were established. Depending on the size of the building these new salaries range from \$2,000.00 to \$2,250.00. The only exception was the position of Senior Building Custodian of the Central Senior and Junior High School. For this position the School Committee set a salary of \$2,500.00.

The approximate total cost in the 1947 General Budget, for all salary raises, is \$50,000.00 over that of the year 1946.

This figure should alarm no one, however, since it is a foregone conclusion that the Commonwealth of Massachusetts is already virtually committed to provide vastly increased sums to towns and cities for the support of local education. Bills have already been filed with the 1947 General Court seeking State-Aid for local education on a much greater basis than ever before.

One of the best is a bill filed by the Massachusetts Teachers Federation. This measure seeks to equalize State-Aid by providing more liberal

reimbursements to the towns and cities less able to finance school costs out of local taxation. Should this bill be passed by the Legislature, in its present form, Saugus would receive State-Aid in 1947 to the amount of \$102,000.00 and in 1948 to the amount of \$204,000.00. Since the amount received in 1945 and 1946 was approximately \$24,000.00 each year the difference is readily apparent.

Some such bill must be passed by the 1947 Legislature or the burden of taxation upon the home owner in most communities will become unduly oppressive.

Incidentally Massachusetts, in comparison to other states in the union, has been very lax in sharing in local costs of education. The costs of education should be a definite concern of the state since an educated citizenship is just as much a concern of the state as it is of the local community.

As I stated in my 1946 report and I quote:—"Neither the state nor the nation can afford to allow millions of its children to suffer disadvantages in educational opportunities."

It should be significant to Americans that Russia is expending 46% of its total expenditures for education.

Visual Education

By unanimous vote of the School Committee a Department of Visual Education has been established within the School Department effective January 1, 1947.

The School Committee has appointed Mr. Philip Bradbury, teacher of Science in the Senior High School, as Director of Visual Education. Mr. Bradbury is exceptionally well qualified to direct this specific type of modern education and his appointment by the School Committee was indeed a wise choice.

This new program of visual education will encompass every school and grade within the school system and will be correlated with the school curriculum. Like the installation of the Rinehart Writing System in 1946 it marks the establishment of another improvement in our school system.

The School Department owns much excellent visual aid equipment. The Essex County Health Association has recently presented to the School Department two modern portable 16 mm sound motion picture projectors complete with all accessory equipment. The same association has given our schools three paid-up \$100.00 subscriptions for film purchase or rental. In addition the Central Senior and Junior High School is equipped with a modern 16 mm sound motion picture projector. This equipment was presented to our school system by one of the recent graduating classes. Supplementing the above equipment is a 16 mm motion picture camera, several 16 mm silent projectors, visual aid slide equipment, etc. Some of the above were gifts of Parent-Teacher Associations. In short the school system is far better equipped with visual aid equipment than the average school system.

All of this equipment will be at the disposal of the Director of Visual Education and the program will be solely his responsibility under the direction of the Superintendent of Schools.

The establishment of this Department of Visual Education will prove an invaluable aid to further the education of the boys and girls of Saugus. The value of visual education in any school program is recognized by leading educators throughout the nation.

Recommendations

An important duty of the Superintendent of Schools is to recommend to the School Committee and to the citizens of the town such projects as will improve our school system.

I recommend many of these in my report of last year.

(1) That a modern gymnasium be constructed so as to make possible an effective physical education program for all pupils in the junior and senior high school.

(2) That a program for improving the play areas in all school yards be initiated so that all school play areas are ultimately resurfaced with modern asphaltic or cork treatment.

(3) The installation of new lighting equipment in all of our school buildings, especially in the classrooms of the same.

(4) The construction of a new modern six-room elementary school-house in the Oaklandvale section of the town.

(5) That detailed blueprints and plans of all school buildings be authorized so that such will be available to the School Department.

(6) The introduction of a course in domestic science for girls in the Senior High School.

(7) That the Mansfield School in East Saugus be completely repaired, renovated and re-equipped for active use. The re-opening of this school appears to be a necessity in the not too distant future.

(8) The removal of the present costly heating system in the Ballard School and its replacement by a central heating plant with oil burning apparatus.

(9) The continuation of the policy, instituted the past year, of rotating elementary school teachers from building to building after a maximum of five years teaching service in one particular building.

(10) The establishment of a super-maximum salary in high, junior high and elementary schools to be given only to those teachers who, in the opinion of the Superintendent of Schools, have demonstrated extraordinary teaching skills and exceptional value to the school system.

Of the above recommendations a definite start has been made during the past year in item No. 5. Students in the Mechanical Drawing classes of the Senior High School are engaged in the making of detailed blueprints of the Central Senior and Junior High School building. When completed they will be turned over to the School Department.

Scholastic Standing

Scholastically our schools remain at a high standard.

Our High School is rated a Class A High School by the State Department of Education.

The New England College Entrance Certificate Board has gone out of existence. In the future, colleges will accept graduates from high schools largely on the following basis.

(a) High School grades of the student.

(b) Principal's recommendation of student.

(c) Results of aptitude tests given student by the college.

The trend, in short, is away from written entrance examinations and towards a total evaluation of the student's ability and personality as determined by the above criteria.

From time to time I hear the uninformed spread the story that graduates of Saugus High School cannot enter college and do successful college work. I do not know for what purpose this story is told but I do know that it is vicious and absolutely untrue.

At the present time we have graduates of Saugus High School doing successful college work in the following colleges and universities. This is only a partial list but it should convince even those who maliciously spread untruths.

Boston University	Ohio Wesleyan University
Harvard University	University of New Hampshire
Tufts College	Northeastern University
Boston College	University of Southern California
Connecticut College for Women	Jackson College
University of Notre Dame	Dartmouth College
Middlebury College	Colby College
Stetson University	Rollins College
Simmons College	Brown University
University of Michigan	

It is also interesting to note that Robert Hill, son of Mr. and Mrs. Francis M. Hill, a graduate of Saugus High School and Bowdoin College, last year passed the examination for the United States Consular Service. This examination is incidentally one of the toughest in the country. He received the appointment and is now attached to the United States Consular Office in Belgium.

May I be pardoned if I also mention with pride that another graduate of Saugus High School, the Hon. Frederick B. Willis, has just been chosen as Speaker of the Massachusetts House of Representatives for the second consecutive year.

School Building Program

A town may postpone the inevitable but it cannot postpone it forever. Building programs are not solved by hiding one's head in the sand like an ostrich.

Saugus has not erected a new school house since 1933 when the present Central Junior High School was constructed. For fourteen years we have remained dormant as far as new school buildings are concerned. This, in spite of the fact, that Saugus is one of the few municipalities that does not owe one cent on schoolhouses.

There are two definite and pressing needs for new schoolhouse construction.

- (1) A new and modern Senior High School.
- (2) A new elementary school in the Oaklandvale section of the town.

May I discuss each under separate captions.

Senior High School

Twice within the last fifteen years your School Committee has urged upon the citizens the necessity of a new modern Senior High School building. Twice the voters have turned it down. The first time it died when everybody wrangled about the site. The second time it was killed by misrepresentation. The second assassination was, in my opinion, the

greatest mistake our town has made in a lifetime. At that time the building, completely equipped, could have been constructed for about \$500,000.00. Of this amount the United States Government stood ready and willing to pay a cash grant of \$250,000.00—exactly one-half of the total cost. At that time school building costs were approximately 35 cents per cubic foot. Now they are about 80 cents per cubic foot. It will always view the rejection of this particular project as one of the greatest sins ever committed against the youth of Saugus. I can forgive those who administered its death potion but I can never believe it was anything but a colossal blunder.

Why do we need a new Senior High School? Here are the reasons and any citizen can check the present building for himself and verify the facts.

(1) No gymnasium and as a result no program of physical education possible.

(2) Totally inadequate and antiquated science laboratories .

(3) Inadequate assembly hall so important in the development of morale and school spirit.

(4) No suitable washroom facilities and outmoded and ancient toilet facilities.

(5) No suitable place for the teaching of Domestic Science for girls.

(6) Inadequate cafeteria facilities.

(7) Improper space for development of Woodworking and Metal Shops.

(8) Aged and ineffective classroom lighting equipment.

(9) Poor school library facilities for a school of our size.

(10) Virtually no place for students to hang their clothes under protection.

All of these shortcomings were told to the citizens at the time the new school was rejected. The blood is not, therefore, on the hands of anyone connected with the School Department.

Now the problem is fast getting to the acute stage. Now building costs are at their peak.

The solution is not in adding wings to the present building. To attempt it would prove very costly. The result would be a sprawling octopus of a building difficult of operation and administration. The only real solution is a new building.

If something isn't done our Class A High School rating will eventually be affected. If this happens, again, the blood will not be on the hands of anyone connected with the School Department.

Oaklandvale School

The Oaklandvale section of the town is productive of one of our best home building developments. In the opinion of our school authorities this section of the town will outstrip all others in new home construction during the next decade.

Serving this area is a school building approximately 100 years old, insofar as I am able to ascertain. It is built upon a ledge on about as poor a piece of land as exists in the entire community. This building will be

totally inadequate to serve the elementary children of this section with any appreciable growth in home building.

Any attempt to enlarge or renovate the present Oaklandvale School would be little short of criminal asininity. The cost would be tremendous and the result a monstrosity.

This is a problem that cannot be long postponed from all present indications.

It is your problem and you are the only ones who can provide the funds to solve it.

A Supporting Opinion

I submit an unsolicited letter from Mr. A. Russell Mack, Supervisor of Secondary Education, in the State Department of Education. I offer it as a supporting opinion to opinions expressed by me in this report.

The letter follows:

February 21, 1946

Mr. Vernon W. Evans
Superintendent of Schools
Saugus, Massachusetts

My dear Mr. Evans:

My recent visit prompts me to write very favorably concerning the administration at Saugus High School, and the academic and commercial work. There is every reason also to be proud of the new guidance program, and the newly organized industrial arts, both manual training and mechanical drawing.

Personally I was gratified to realize that there is such a goodly ratio of men teachers, 18 of the 30 teachers being men. There has never been a reason other than economic for other than a 50-50 ratio in the secondary school years, but the ratio is more usually many more lady teachers than men teachers.

The building is an old one, but the chief lacks are a strong physical education program, and household arts. There is no gymnasium, which is an essential with the emphasis upon health and physical education made before the war and also resulting from the war, selective draft showing, etc.

I hope that in the post war period, it will be possible for Saugus to have a new gymnasium, and household arts rooms, as well as extensive renovations to the present plant. Perhaps an even better suggestion would be for a modern educational structure on an adequate site which most educators now estimate should be at least ten acres.

Sincerely yours,

A. RUSSELL MACK,

Supervisor of Secondary Education

ARM/EP

School Milk Program

A new school milk program is now in operation in all of the schools in the town. This new program is under the joint sponsorship of the Department of Education and the Department of Public Welfare of the Commonwealth of Massachusetts.

All of our school children are now able to buy milk at four cents per bottle. Previously it was necessary to charge six cents per bottle in some schools and seven cents per bottle in others.

The new program has already justified its introduction in our school system. It started on January 8, 1947 with a daily consumption of 820 bottles of milk. A few weeks thereafter this total of 820 bottles had risen to a total of nearly 1000 bottles per day. In other words the reduced price of the milk, per bottle, has resulted in an increased consumption of milk by the school children of our town. The program involves no expense, whatsoever, to the taxpayers of the town as far as its operation is concerned.

It is the hope of the School Committee and the Superintendent of Schools that the present consumption may ultimately be raised to approximately 1400 bottles per day. If this figure is attained it would mean that practically one half of the entire pupil enrolment of the school system would be drinking milk each day. It is generally agreed that milk is one of the most substantial of foods and that it plays a very important factor in the conservation of health.

The school officials urge all parents to impress upon their children the importance of participating in this milk program.

Athletic and Cafeteria Accounts

A summary of the financial condition of the athletic and cafeteria accounts of Saugus High School are included a few pages hence. Both accounts are outlined in some detail. Both accounts are under the jurisdiction of the School Committee and under the immediate supervision of Principal John A. W. Pearce. The accounts are audited every so often and are efficiently kept by Miss Mabel Willey, treasurer of both accounts.

In Conclusion

In conclusion may I thank each member of the School Committee for the splendid cooperation given me during the year 1946. May I also thank the teachers, all other school employees, and the pupils for their cooperation and loyalty.

Respectfully submitted,

VERNON W. EVANS,
Superintendent of Schools.

Report of the Principal of the Saugus High School

January 21, 1947.

Mr. Vernon W. Evans
Superintendent of Schools
Saugus, Mass.

My dear Mr. Evans:

I herewith submit my twelfth annual report as Principal of the Saugus High School.

The Opening of School and New Teachers

School opened in September with the following enrollment:

Grade	12	—	147
	11	—	190
	10	—	200
	9	—	282
	8	—	127
	7	—	150
			Total 1096

In the Senior High School we welcomed the following new teachers:

Mr. John Janusas—Social Studies and Assistant Football Coach
Miss Frances McFarlane—English and French
Mr. Ralph Earle—Wood Shop (Feb. 1st)

We welcomed the following teachers back from service:

Mr. Edward Gibbs, 3rd—Guidance Director
Mr. John Burns—English
Mr. Tauno Tamminen—Metal Shop

In the Central Junior High School we welcomed the following teachers:

Mrs. Janet Sanborn—Literature
Mrs. Virginia Earle—History

We also welcomed the following new supervisors:

Miss Audrey Thomas—Music
Mr. Walter Germaine—Band

Two of our Senior High School teachers were taken by death during the year 1946:

Mr. Harry Potts—Biology, early in March
Miss Bertha Morrison—Commercial, shortly after school opened in September

These people had been teachers in Saugus High School for a good many years.

Trends in College Entrance

Today colleges report that they are not so much concerned with subjects as with evidence of scholastic ability and there is a trend away from rigid requirements toward a flexible program. However, the fact remains that most colleges still require the fifteen Carnegie units of high school work and these units are expected to cover certain definite areas.

It is now true that most colleges do not stipulate individual subjects but they do specify certain fields in which work must have been done.

Most colleges now require work in the following five areas: social science, natural science, foreign language, English, and Mathematics. Beyond these, many institutions required specific subjects as: four years of English, one year of Algebra, one year of Plane Geometry, two years of foreign language, one year of science, and one year in the field of social studies. The other units must come from the above broad fields, although a few places now permit substitution of one or two non-academic courses for college preparatory subjects.

A promising trend despite the rather rigid pattern that is still with us, is the statement on the part of the colleges that they are more interested in the "whole boy or girl" than in his grade in some particular subject. College Board examinations at present have the following two aims: to predict college success, and to provide a fair basis to judge students from all parts of the country and from different kinds of schools, public and independent.

Community School Lunch Program

The National School Lunch Act approved June 1946 provides permanent assistance to states in the establishment and operation of the school lunch program for children attending non-profit public and private schools, of high school grade and under. Its purpose is to safeguard the health and well being of the nation's children and encourage the consumption of nutritious agricultural commodities and other foods. This program is State administered entirely. All Federal funds are paid to the State and apportioned to Schools by the Office of Community School Lunch Programs. This office is controlled jointly by the Massachusetts Department of Education and the Department of Public Welfare. State funds pay for administration of the program. By 1948 the control of the School Lunch Program will be entirely in the hands of the Department of Education.

The first aim of the School Lunch Program is to provide improved nutrition for children, and the second is a long time aim of helping the American farmer dispose of his crops. It is not a welfare program, but a nutritional program which was started at the request of the Surgeon General's Office when the appalling lack of balanced eating became evident in the examination of young people in recent years. Of the 365 communities in Massachusetts, 227 (with 1394 schools) are now participating in this lunch program.

Proposed Regulations for Approval of Massachusetts High Schools

High Schools in Massachusetts have for years been classified as A or B Schools. It is clearly recognized that this classification is a matter of prestige only. However, it does give the opportunity to effect improvements. The following present conditions necessary for a High School to classify as a Class A School:

1. Personnel

If there has been a 50 percent or greater turnover of teachers, the high school may be placed in Class B for the following year. The program of teachers with more than five classes a day or more than 125 pupils per day will be carefully scrutinized. Teaching by the Principal in a school the size of Saugus High School will be subject to question.

A. Qualification of teachers, i. e., newly employed.

All teachers and principals shall have a bachelor's degree, and a minimum of 16 semester hours in Education, plus one year's experience, to qualify for a position in a high school the size of ours.

B. Qualifications of Principals, newly employed—same as teachers, plus Master's degree and three years' teacher experience.

2. Program

It is recognized that high schools must train for entrance to higher institutions of learning as well as for life. Therefore, there shall be at least three curriculums,—College Preparatory, Commercial, and General, or what corresponds to these curriculums if there is a program of required and elective subjects under guidance. Exceptions may be made for other than comprehensive high schools. If no Vocational work is offered, definite plans for attendance at the nearest Vocational school shall be made. There shall be a program for health and physical education, for music and art, as well as definite inclusion of recent developments in Guidance, Aviation, Driver Education, and Consumer Education. There shall be a testing program, including the use of standardized tests with the results available to the State Department of Education.

A. Pupil-teacher load—obtained by dividing the number of pupils by the number of teachers (including part-time pro-rated), exclusive of the Principal. In a school the size of ours—not over 25-1.

B. Schedule—The length of the school day shall not be less than five hours net. The periods shall be at least 40 minutes net length.

The requirements for graduation shall be at least 15 units (16 recommended). A unit represents a year's study in any subject in a secondary school, constituting approximately one-fourth of a full year's work. Shop or laboratory periods count one-half as much as recitation periods.

3. School Plant

The following shows what a new building should have. Those in old buildings should recognize discrepancies which exist on account of constructionally and educationally obsolete buildings. To the extent that these are lacking, the Class A or Class B rating will be affected.

Site—Any new site should have at least 10 acres.

Building—Any new building should have:

Adequate classrooms

Principal's office and fireproof vault

Adequate lavatories

Teachers' Rooms

The lighting, heating, and ventilating of the rooms and the methods of cleaning shall be such as to insure conditions recognized as hygienic by modern standards. The condition of the school building and its surroundings is an important factor in the influence of the high school. Hence, the

general appearance of the school rooms, halls, buildings and yards, the care of books and supplies, and the condition of the blackboards, **must receive proper attention.**

The number and character of classrooms, recitation rooms and laboratories, and the equipment of the school, shall be such as may reasonably be expected in a Class A High School.

Lack of Home Study

No pupil can properly do all his studying in school hours. For satisfactory progress most pupils require two hours of home study daily—many longer. Time should be carefully budgeted at home to insure regular preparation. Pupils are cautioned against depending upon study periods too much, since frequently they are taken for assemblies. They should plan to use them more for review.

The above suggestions have been printed in our Handbook for several years, but unfortunately only a small percentage of Saugus High School pupils follow them. There are a great many pupils who tell their parents that they can do all of their studying in school and therefore do not have to take any books home to study. Low marks result from such practices, failures in many cases.

Regulations Concerning Attendance

1. Pupils are expected to be absent from school only in cases of emergency or with permission from the main office.

2. All work lost because of absence from school has to be made up satisfactorily before full credit will be given. Teachers have been assigned days for makeup work, at which time pupils must report.

3. Any pupil absent from school without consent of parents is required to make up ten hours of study in General Session.

4. No pupil is to attend or take part in a dance, athletic contest, or other school activity on the day he or she is absent from school, without first obtaining permission from the office.

5. Oversleeping may be a valid reason for tardiness but not for absence. A pupil who oversleeps is expected to arrive at school within a reasonable time after awakening.

6. Any pupil absent from school for three consecutive days must obtain an admit slip from the office to be readmitted to his or her Home Room.

7. All attendance slips must be signed by parent or guardian, who is also to write the excuse.

8. Dismissals by telephone request will not be granted except in cases of extreme emergency. This is necessary as a protection to pupils.

The above regulations are brought to your attention and to the attention of parents who may read this report. Too many pupils in Saugus High School have poor attendance records.

In conclusion, I wish to thank you, Mr. Evans, and the members of the School Committee for your helpful advice and encouragement.

Sincerely yours,

JOHN A. W. PEARCE,
Principal.
